OFFICIAL REGISTER OF HARVARD UNIVERSITY

VOL. XXXIII

NOVEMBER 2, 1936

NO. 45

THE HARVARD MEDICAL SCHOOL

25 SHATTUCK STREET
BOSTON • MASSACHUSETTS

WITH AN ANNOUNCEMENT FOR 1937-38

PUBLISHED BY HARVARD UNIVERSITY

OFFICIAL REGISTER OF HARVARD UNIVERSITY

PUBLICATION OFFICE, LEHMAN HALL, CAMBRIDGE, MASS.

*[Entered March 6, 1913, at Boston, Mass., as second-class matter,
under Act of Congress of August 24, 1912.]*

Issued at Cambridge Station, Boston, Mass., twice each, in January, February, July, August, September, October, November, and December; eight times each, in March, April, May, and June.

These publications include the reports of the president and of the treasurer; the University catalogue; the catalogues of the College and the several professional schools of the University; the courses of instruction; the announcements of the several departments; and the like.

HARVARD MEDICAL SCHOOL

ANNOUNCEMENT
OF THE
HARVARD MEDICAL
SCHOOL

25 SHATTUCK STREET
BOSTON • MASSACHUSETTS

WITH AN ANNOUNCEMENT FOR 1937-38

PUBLISHED BY THE UNIVERSITY

NOTE

BECAUSE this catalogue closed for the press in October, 1936, the information it contains is not in every case correct for the entire academic year 1936-1937. In general the descriptive chapters have been revised as of July, and the lists of officers and students by departments as of October.

MEDICAL SCHOOL CALENDAR

1936

- Sept. 25, Friday.* Registration of first year students.
- Sept. 28, Monday.* **Academic Year begins.** Registration of second, third, and fourth year students.
- Sept. 30, Wednesday.* Payment of the first instalment of the tuition fee is required on this date.
- Oct. 12, Monday.* Columbus Day: a holiday.
- Nov. 11, Wednesday.* Armistice Day: a holiday.
- Nov. 26, Thursday.* Thanksgiving Day: a holiday.
- Nov. 30, Monday.* Payment of the second instalment of the tuition fee is required on or before this date.

RECESS FROM DEC. 23, 1936 TO JAN. 2, 1937, INCLUSIVE

1937

- Jan. 15, Friday.* Last day for receiving applications for the Cheever, Greene, Haven, and Mears Scholarships.
- Jan. 30, Saturday.* Payment of the third instalment of the tuition fee is required on or before this date.
- Feb. 1, Monday.* **Second half-year begins.**
- Feb. 22, Monday.* Washington's Birthday: a holiday.
- Mar. 1, Monday.* Last day for receiving applications for the Bullard, James Jackson Cabot, and Moseley Travelling Fellowships.

RECESS FROM APRIL 4 TO APRIL 11, INCLUSIVE

- April 19, Monday.* Patriots' Day: a holiday.
- April 30, Friday.* Payment of the fourth instalment of the tuition fee is required on or before this date.
- May 1, Saturday.* Last day for receiving applications of candidates for the degree of M.D. in 1937.
- May 15, Saturday.* Last day for receiving applications for Scholarships for 1937-38 (except the Cheever, Greene, Haven, and Mears Scholarships).
- May 31, Monday.* Memorial Day: a holiday.
- June 24, Thursday.* **Commencement.**

SUMMER VACATION FROM COMMENCEMENT TO SEPTEMBER 26, INCLUSIVE

THE PRESIDENT AND FELLOWS OF HARVARD COLLEGE

This Board is commonly known as the CORPORATION

PRESIDENT

JAMES BRYANT CONANT, A.B., PH.D., LL.D., S.D., L.H.D.
17 Quincy St., Cambridge

FELLOWS

THOMAS NELSON PERKINS, A.B., LL.B., LL.D.
50 Federal St., Boston
CHARLES PELHAM CURTIS, JR., A.B., LL.B. 30 State St., Boston
ROGER IRVING LEE, A.B., M.D. 264 Beacon St., Boston
GRENVILLE CLARK, A.B., LL.B. 31 Nassau St., New York, N.Y.
CHARLES ALLERTON COOLIDGE, JR., A.B., LL.B.
50 Federal St., Boston

TREASURER

HENRY LEE SHATTUCK, A.B., LL.B. 24 Milk St., Boston

SECRETARY TO THE CORPORATION

JEROME DAVIS GREENE, A.B., A.M. 10 University Hall, Cambridge

THE BOARD OF OVERSEERS

The PRESIDENT and the TREASURER of the University, *ex officio*, and the following persons by election: —

1937*

GEORGE RUSSELL AGASSIZ, A.B., President.	14 Ashburton Pl., Boston
ALLSTON BURR, A.M.	60 State St., Boston
DWIGHT PARKER ROBINSON, A.B., S.B.	St. Davids, Pa.
FREDERICK WINSOR, A.B.	Middlesex School, Concord
WILLIAM PHILLIPS, A.M., LL.D.	Department of State, Washington, D. C.

1938

MINOT SIMONS, A.M., S.T.B., D.D.	64 East 86th St., New York, N. Y.
DANIEL FISKE JONES, A.B., M.D.	195 Beacon St., Boston
ALBERT ARNOLD SPRAGUE, A.B.	1130 Lake Shore Drive, Chicago, Ill.
GEORGE WHITNEY, A.B.	23 Wall St., New York, N. Y.
FRANCIS PARKMAN, Ph.D.	Southborough

1939

MARK ANTONY DeWOLFE HOWE, A.M., Litt.D.	16 Louisburg Sq., Boston
NATHAN HAYWARD, A.B., S.B.	12 South 12th St., Philadelphia, Pa.
SAMUEL HUNTINGTON WOLCOTT, A.B.	State Street Trust Co., Boston
GASPAR GRISWOLD BACON, A.B., LL.B.	222 Prince St., Jamaica Plain, Mass.
WALTER LIPPMANN, A.B., LL.D., Litt.D.	230 West 41st St., New York, N. Y.

* The term expires, in each case, on Commencement Day of the year indicated.

1940

- CHARLES WARREN, A.M., LL.D. 710 Mills Bldg., Washington, D. C.
 JAMES MADISON MORTON, JR., A.M., LL.B. 484 Highland Ave., Fall River
 ALBERT FRANCIS BIGELOW, A.B., LL.B. 246 Dudley St., Brookline
 CHARLES ELLIOTT PERKINS, A.B. 257 La Arcada Bldg., Santa Barbara, Calif.
 SAMUEL CABOT, A.B. 141 Milk St., Boston

1941

- GEORGE THOMAS MOORE, PH.D. Missouri Botanical Garden, St. Louis, Mo.
 WILLIAM RICHARDS CASTLE, A.B., LL.D., D.C.L. 2200 S St., N.W., Washington, D. C.
 LEVERETT SALTONSTALL, A.B., LL.B., LL.D. 608 Shawmut Bank Bldg., Boston
 HENRY STURGIS MORGAN, A.B. 2 Wall St., New York, N. Y.
 BLISS PERRY, A.M., L.H.D., LITT.D., LL.D. 5 Clement Circle, Cambridge

1942

- AUGUSTUS NOBLE HAND, A.M., LL.B. U. S. Circuit Court of Appeals, New York, N. Y.
 ELLERY SEDGWICK, A.B., LITT.D. 8 Arlington St., Boston
 ROBERT HAYDOCK HALLOWELL, A.B. 40 Central St., Boston
 CHANNING FROTHINGHAM, A.B., M.D. Faulkner Hospital, Jamaica Plain
 GEORGE HAROLD EDGELL, A.B., PH.D. Museum of Fine Arts, Boston

 SECRETARY OF THE BOARD OF OVERSEERS

- WINTHROP HOWLAND WADE, A.M., LL.B. 50 Congress St., Boston

ADMINISTRATIVE OFFICERS OF THE MEDICAL SCHOOL

President: JAMES B. CONANT, A.B., PH.D., LL.D., S.D., L.H.D.

Office, 5 University Hall, Cambridge.

Dean: C. SIDNEY BURWELL, M.D., LL.D.

Office, Administration Building, Medical School. Office hours by appointment.

Assistant Dean: WORTH HALE, M.D.

Office, Administration Building, Medical School. Office hours, Monday, Tuesday, Wednesday, and Friday, 3.30 to 4.30 P.M., and by appointment.

Secretary: Mrs. Florence I. Honeij, A.M.

Office, Room 101, Administration Building, Medical School.

Chairman of the Division of Medical Sciences of the Faculty of Arts and Sciences: EDWIN J. COHN, PH.D., Harvard Medical School.

Office hours by appointment.

Physician to Students: CLARK W. HEATH, M.D.

Office hours, daily, except Saturdays and holidays, 1-4.00 P.M., Room 103, Administration Building, Harvard Medical School. Telephone, Longwood 2380.

The Bursar's Office is in Lehman Hall, Cambridge. It is open on all business days from 9 A.M. to 5 P.M., except Saturdays, when it is open from 9 A.M. to 1 P.M. for the receipt of fees, payments, and other financial business.

ADMINISTRATIVE BOARD

PRESIDENT, JAMES B. CONANT, A.B., PH.D., LL.D., S.D., L.H.D. (*ex officio*).

DEAN, C. SIDNEY BURWELL, M.D., LL.D. (*ex officio*), *Chairman*.

WORTH HALE, M.D., *Assistant Dean and Associate Professor of Pharmacology*.

J. LEWIS BREMER, M.D., *Hersey Professor of Anatomy*.

KENNETH D. BLACKFAN, M.D., *Thomas Morgan Rotch Professor of Pediatrics*.

JAMES L. GAMBLE, M.D., S.M., *Professor of Pediatrics*.

FREDERICK C. IRVING, M.D., *William Lambert Richardson Professor of Obstetrics*.

GEORGE R. MINOT, M.D., S.D., *Professor of Medicine*.

ELLIOTT C. CUTLER, M.D., *Moseley Professor of Surgery*.

GEORGE B. WISLOCKI, M.D., *Parkman Professor of Anatomy*.

FREDERIC PARKER, JR., M.D., *Associate Professor of Pathology*.

EDWIN J. COHN, PH.D., *Professor of Biological Chemistry*.

TRACY J. PUTNAM, M.D., *Professor of Neurology*.

EDWARD D. CHURCHILL, M.D., *John Homans Professor of Surgery*.

A. BAIRD HASTINGS, PH.D., *Hamilton Kuhn Professor of Biological Chemistry*.

HARVARD MEDICAL SCHOOL BOSTON

REQUIREMENTS FOR ADMISSION

All candidates must present evidence satisfactory to the Committee on Admission not simply that they have passed the courses necessary to fulfil the requirements, but also that their scholarship and their general qualifications for medicine are of such character as to give promise of work of high quality in the medical course.

On the above basis this School considers, for admission to its classes, graduates in arts or in science of *approved* colleges.

In exceptional cases applicants without a degree who have completed two or more years of work in a college of high rank, provided they present certificates that they have scholastic standing placing them in the first third of their class, may be admitted.

Credentials from foreign universities, in most cases, must be supplemented by a year or more of work in an American university. Admission cannot be assured, as all classes are limited.

LANGUAGE AND SCIENCE REQUIREMENTS *

(a) All applicants must present evidence that they have such knowledge of English as is ordinarily required of all candidates for a degree in an approved college and that they have a reading knowledge of French or of German.

(b) They must present evidence that they have *college credits* for at least a year's work in general inorganic chemistry, in physics, in biology, and in organic chemistry.

To meet the science requirements satisfactorily, time credit in college should be secured as follows:

Inorganic Chemistry: A minimum of eight semester hours, † of which at least four should be laboratory work.

* It is assumed that before admission to an 'acceptable college a four years' course in High School or its equivalent will have been completed.

† A semester hour is one hour of lecture or recitation, or two hours of laboratory work, per week, for one half-year or sixteen weeks. Full courses at Harvard count as eight semester hours.

Organic Chemistry: A minimum of eight semester hours, of which at least four should be laboratory work.

Physics: A minimum of eight semester hours, of which at least two should be laboratory work.

Biology: A minimum of eight semester hours (including not less than four hours of zoölogy), of which at least four should be laboratory work.

(c) They must have taken the Aptitude Test of the Association of American Medical Colleges.

These requirements must be satisfied in full before matriculation.

In addition to these specific requirements, the following recommendations are made in order to guide students intending to study medicine in the selection of their college courses in the sciences:

The preparation of the student in chemistry may well include knowledge of the physical chemistry of solutions and experience in quantitative technique, particularly volumetric analysis. The latter may be part of the laboratory work in connection with the instruction in physical chemistry. If the course in inorganic chemistry which is offered for admission does not include adequate instruction in the physical chemistry of solutions and in quantitative technique, courses in these subjects are desirable, although they are not required.

The preparation in biology should include, if possible, some training in vertebrate embryology. In general, credit will not be given for courses in physiology, histology, bacteriology, neurology, and other subjects similarly considered in the medical curriculum. Students are not advised to take such courses as a part of their preparation for the work in the Medical School.

Applications for the first year class should be filed as early as October and be completed not later than March 1, on blanks furnished by the Assistant Dean. Selection of applicants will be completed by March 15. One hundred and twenty-five men from about eight hundred applicants will be accepted.

ADMISSION TO ADVANCED STANDING

By increasing the third year class to one hundred and thirty-five men, a few places are usually available for transfers from other medical schools. In exceptional cases men may be admitted to the second and fourth year classes. They must be vouched for as promising men by the Dean or by some other responsible officer of the School from which they come and must furnish a certificate showing time spent in medical study at least equal to that spent by the class to which they seek admission.

Only men of high scholastic standing will be considered. Full credit for work done elsewhere will be allowed as a rule, but in certain cases additional work, especially in clinical pathology and in physical diagnosis, will be required.

Applications may be obtained at the Dean's office after October 1 and must be completed before February 1.

GENERAL REGULATIONS

First year students will register in the amphitheatre in Building C, on the Friday preceding the last Wednesday in September, at 10 A.M.

A brief thesis, for which 50 hours credit is given toward graduation, is required of all matriculants as part of their necessary work. The thesis must be handed in not later than May 15 of the student's first year.

In order that the time of study shall count as a full year, students of all upper classes must register on Monday, the first day of the session:

<i>Second Year</i>	9.15 A.M.
<i>Third Year</i>	10.15 A.M.
<i>Fourth Year</i>	11.15 A.M.

For special and approved purposes students may be allowed to take a portion of their work elsewhere than at the Harvard Medical School, provided the application be approved by the Dean in consultation with the Administrative Board and the head of the department concerned, and provided the student passes an examination on this work after its completion, conducted by a member of the Faculty of the Harvard Medical School.

EXAMINATIONS AND PROMOTION

Promotion from one class to another is dependent upon the satisfactory completion of the work of each year. Grades will be given in each course based upon examinations or other tests as determined by each department. Grading is on the scale of A, B, C, D and E (E denoting failure), but aside from partial tests during the course, no marks may be given to the student until after the Promotion Board has acted and then only either as Satisfactory or Unsatisfactory. While only a grade of E is considered a failure, grades below C are unsatisfactory. Final grades will be given out only by the Dean or the Assistant Dean.

Grades are averaged on the basis that A=100, B=200, C=300, D=500 and E=800, and since the time devoted to courses varies, grade averages will take into account the time assigned to courses, giving them computation values as follows:

First Year:	Anatomy 5; Histology 5; Physiology 5; Biological Chemistry 5.
Second Year:	Pathology 6; Bacteriology 4; Pharmacology 4; Medicine 4; Surgery 2.
Third Year:	Medicine 6; Surgery 6; Pediatrics 3; Obstetrics 3; Preventive Medicine 2.
Fourth Year:	Proportional to month's work.

Only the originally assigned grade is used in computing the average, but in case a student has been set back a year, the grades of both years shall form the basis of computation.

Promotion Boards:

Promotion Boards have been appointed for the first, second and third years to review the work of the student at the end of the year or, at their option, at other times. The membership of these boards respectively consists of one voting representative from each department whose grading, as noted above, affects the student's grade average and one member from the Committee on Examinations.

It is the duty of the Promotion Board to promote those qualified, to warn students whose work is of low grade — in certain cases requiring that these students be set back a year — and to recommend that unpromising students withdraw from the School.

An appeal either directly or indirectly from the Board's action at any time to an individual member of the Faculty will automatically make the Board's action irrevocable; but an opportunity will be given to appear for a hearing either at a special meeting held within two weeks after the Board's action, or at the next annual meeting of the Board. The Board will then take final action from which an appeal cannot be taken. Applications for a hearing should be sent to the Chairman of the Promotion Board, Harvard Medical School.

General Examination:

A committee will give a General Examination to each candidate for the degree of M.D., and will assign him a final mark. It will recommend to the Faculty those who pass and are otherwise qualified for the degree and for honors. The conditions under which a student may take a General Examination and the character and conduct of the examination will be determined by the Committee subject only to rules of the Faculty.

Rules governing promotion:

1. The Faculty reserves the right to require the withdrawal of any student at any time when, in the opinion of his instructors, it is manifest that he is incompetent, or for any reason is unfit to continue his course.

2. Work in a course may be regarded as incomplete at the option of a department, and will be considered only indirectly in the action of the Promotion Board.

3. A student with a grade averaging, for the year, from D (500) to E (800) shall withdraw from the School.

4. A student whose grade averages from C — (400) to D (500) shall be warned. At the Board's discretion and especially if his grade average approaches D, the student may be asked to withdraw or he may be set back a year.

5. A student who is set back a year must repeat at least two assigned subjects and then he shall not be promoted unless he obtains an honor grade in at least one of these subjects.

6. A warned student must attain a grade average higher than in his previous year, failing which, he must be set back a year, or, at the Board's discretion, he may be required to withdraw from the School.

7. A student failing in any course and yet permitted to advance with his class shall not be promoted a second time nor may he be allowed to take the General Examination until that failure is removed.

8. A student failing any course shall have an opportunity for re-examination only in September or with a succeeding class or section. This rule shall not prevent a special examination for students who have been required to withdraw by the Promotion Boards.

9. A student becomes eligible to take a General Examination on successfully completing seven-eighths of his fourth year work. He may not anticipate the General Examination ahead of his class.

10. A student who fails three General Examinations shall be debarred from further attempts.

WITHDRAWAL FROM THE SCHOOL

A student may withdraw from the School, upon application to the Assistant Dean. *Application for reinstatement must be made at least four months prior to the date of readmission and for favorable action must be approved by the Promotion Board. After two years, favorable action will not usually be taken.*

DEGREES

DEGREE OF DOCTOR OF MEDICINE

Every candidate for the *degree of Doctor of Medicine* at this University must be at least twenty-one years of age, and of good moral character. He must have fulfilled all the requirements for admission to this Medical School; give evidence of having studied in a recognized medical school at least four full years, of which one year must be spent in the regular fourth year course of this School; have passed all the required examinations; have dissected the three parts of the body to the satisfaction of the demonstrator; have taken charge of and reported on twelve cases in Obstetrics under supervision and instruction; and furnish evidence of having engaged in the practical exercises in Medicine and Surgery.

The degree of Doctor of Medicine *cum laude* or *magna cum laude* may be given to students of highest rating in the class, on recommendation of the Committee on Examinations.

Every candidate for the degree of M.D. must make application for it in writing on blanks furnished at the Dean's office, on or before *May 1* of the year in which he proposes to graduate.

HIGHER DEGREES IN THE MEDICAL SCIENCES

The degrees Master of Arts, Doctor of Philosophy, and Doctor of Medical Sciences have been established for advanced work in some special field in the Medical Sciences. The first two degrees are voted by the Faculty of Arts and Sciences upon the recommendation of a Committee consisting of members of

the Faculties of Medicine and of Arts and Sciences. The degree of Doctor of Medical Sciences is administered by the above Committee, excepting the members from Harvard College, and the degree is voted by the Medical Faculty. All candidates for these degrees must hold a degree in Arts or in Sciences from an approved college. These degrees are not awarded for mere reason of faithful study for a prescribed time, but primarily for high attainment in a selected science.

MASTER OF ARTS AND DOCTOR OF PHILOSOPHY

Candidates for the *degree of Master of Arts* must register in the Graduate School of Arts and Sciences, and pursue an approved course of study in medical science for at least one year which must be spent in residence.

Candidates for the *degree of Doctor of Philosophy* must fulfil certain preliminary requirements described in the general University Catalogue, must devote to approved advanced studies not less than two years — at least one of which must be spent in residence at this University — and must pass general examinations and present an account of original work in an accepted thesis, before being granted the degree.

The fee is \$400 for each year.

DOCTOR OF MEDICAL SCIENCES

Candidates for this degree must matriculate as medical students and complete with an honor grade the regular elementary courses offered by this School in Anatomy, Histology and Embryology, Physiology, Biological Chemistry, Bacteriology, Pathology, Pharmacology and Clinical Pathology, together with such other subjects as may be recommended by the Committee. In addition all candidates are required to have a reading knowledge of French and German. Ordinarily this preparatory training will be equivalent to the first two years of the course of study leading to the degree of M.D. Students who have completed all or a portion of this work in other approved medical schools may be admitted to candidacy upon presenting evidence that they have passed the above subjects or their equivalents with an honor grade, and upon passing the general examination described below.

Following the completion of this preliminary training the student shall devote himself for not less than two years to the intensive study of one of the fundamental medical sciences and to the preparation of a thesis. The thesis must show an original treatment of a fitting subject and give evidence of independent research.

There shall be two examinations for every candidate for this degree: a general examination, before entering upon the work of the last two years, covering the elementary medical sciences listed above; and a final examination, upon acceptance of the thesis, covering the particular medical science chosen as a special field.

The fees for the first two years are the same as for medical students.

Further information concerning the higher degrees may be secured from DR. HALLOWELL DAVIS, Secretary of the Division of Medical Sciences, Harvard Medical School.

FEES AND EXPENSES

DEGREE OF DOCTOR OF MEDICINE

It is recommended, unless a student sees reasonably clearly how he will meet the expenses of at least the first year in the School, that he postpone his entrance until he can save money enough to get started without having ahead of him oppressive financial worry. Only a limited amount of outside work can be done without being a tax on the student's health and scholarship.

An estimate of total yearly expenses shows that the average cost of the school year is \$1,275 for the last three years, and \$1,430 for the first year when, in addition to other expenses, a microscope must be bought. This estimate includes tuition, board and room, books, laboratory fee, laundry and incidentals.

Matriculants are required to own their microscopes and hemocytometers. These must be of a type acceptable to the Medical School. The cost of a microscope will be about \$157.

The fees are: — For matriculation, \$5; for medical and infirmary fee, \$20 for each year; for instruction (including laboratory charges except breakage, damage and loss of apparatus), \$400 for each year.

The term-bills for the academic year 1936-37 will be issued and payable as follows:

The first term-bill will be issued at registration and payable on or before September 30, and will include one-fourth of the regular tuition, one-half of the medical and infirmary fee and the matriculation fee if any. Students who register late must pay their bills on or before the second business day following registration.

The second term-bill will be issued November 12, payable November 30, and will include one-fourth of the tuition, one-half of the room rent for the academic year, and charges at the dining halls from September 28 to October 31.

The third term-bill will be issued January 12, payable January 30, and will include one-fourth of the tuition, one-half of the medical and infirmary fee and charges at the dining halls from November 1 to December 31.

The fourth term-bill will be issued April 12, payable April 30, and will include one-fourth of the tuition, one-half the room rent, and charges at the dining halls from January 1 to March 31.

The fifth term-bill will be issued June 17, payable July 10, and will include charges at the dining halls from April 1 to the end of the term and charges for breakage, etc. Any charge received in the Bursar's Office too late to be included in the June term-bill will be charged on a supplemental bill to be mailed out about June 30.

Bills for miscellaneous charges will be rendered at the time the indebtedness is incurred.

All indebtedness to the University must be paid by all candidates for degrees at least one day before Commencement.

Students who are candidates for degrees in the middle of the academic year must pay all dues to the University at least one day before the day upon which the degrees are to be voted.

The term-bills are sent to the student at his college address unless the Bursar is requested in writing to send them elsewhere.

When a student's connection with the University is severed, all charges against him must be paid at once.

A deposit of \$50 is required of every new student who accepts a place in the Medical School; this sum to be applied on his first term-bill or to be forfeited if the student does not register.

A deposit of \$1 with the Superintendent of Buildings will entitle the student to the use of a locker in the School buildings.

Any student whose indebtedness to the University remains unpaid on the date fixed for payment is deprived of the privileges of the University until he is reinstated. Reinstatement is obtained only by consent of the Dean of the Department in which the student is enrolled, after payment of all indebtedness and a reinstatement fee of \$10. *Students will be held responsible for the payment of fees until they have notified the Dean, in writing, of their intention to withdraw from the School, and have subsequently received their bond from the Bursar.*

DORMITORY

Vanderbilt Hall, the Medical School dormitory, has accommodations for 348 students. The price of rooms ranges from \$125 to \$370 for the academic year of thirty-nine weeks. Application forms for rooms in the dormitory will be sent to all new students early in April and they should be returned to the Dean of the Medical School before May 15. Students permitted to reengage their rooms must file at the Bursar's Office new room agreements on or before April 1, 1937. The dormitory has squash courts and a gymnasium, which are open to members of the teaching staff and students of the Medical School. In addition the School owns four tennis courts.

The dormitory contains a large dining hall which is available for all members of the Medical School. Meals are served at reasonable prices.

BOND REQUIRED OF STUDENTS

On his entrance to the School every student is required to file with the Bursar a bond in the sum of \$500 as security for payment of University bills. The bond may be signed by two bondsmen, both of whom must be citizens of the United States, or by a surety company duly qualified to do business in Massachusetts.

No officer or student of the University will be accepted as a bondsman and

OUTLINE PLAN OF THE HARVARD MEDICAL SCHOOL

in no case will more than one parent be accepted. In lieu of the bond a student may deposit with the Bursar five hundred dollars in United States government coupon bonds, or five hundred dollars in cash which will bear no interest.

MEDICAL ATTENDANCE

A medical adviser, who is under the joint supervision of the Department of Hygiene and of the Medical School, will be available for consultation by students. He will be in his office in Building A, Harvard Medical School, from 1 to 4 o'clock daily except Saturdays and holidays. He may also be seen at other times by appointment and at any time in case of emergency.

A complete medical examination of each member of the entering class will be made at the beginning of the school year. Ample opportunity will be given other students who desire a medical examination also. See the University catalogue for information regarding the payment of medical and infirmary fee and the facilities which will be available in return.

Any illness necessitating absence from work must be reported to the medical adviser.

Evidence of having been satisfactorily vaccinated is required for entrance to Harvard University.

BUILDINGS

The course in Medicine, established by Harvard University in 1782, was given in buildings of the College, Harvard Hall and Holden Chapel, from its establishment until 1810, when the classes were transferred to Boston. In 1816 the first Medical School building was erected. From 1882 until 1906 the School occupied the building at the corner of Boylston and Exeter Streets, now used by Boston University.

In 1906 the University completed a notable group of white marble buildings on Longwood Avenue for the Medical School. These buildings are five in number and with their surrounding grounds occupy eleven acres of land in the outskirts of Boston. One of these is designed for administration and four for housing the laboratory departments, and for laboratory and clinical instruction.

The Administration Building, with over 40,000 square feet of floor space, contains the Faculty Room, the Dean's offices, the joint library of the Medical School and the School of Public Health, and the Warren Museum.

The laboratory buildings, designated by the letters B, C, D, and E, are all constructed on the same general plan. Each consists of two parallel wings united at the front by an amphitheatre with a seating capacity of two hundred and fifty. Both the smaller rooms and the laboratories are designed on a unit system which greatly simplifies the changes required in making these suited to the needs of departments whose methods of teaching have changed since the rooms were originally designed.

The amount of floor space varies considerably in each of the four buildings,

but the design is such that this variation is not apparent from the main quadrangle.

Building B accommodates the department of Anatomy, Histology, and Embryology. The wings each have three floors and a total floor space of over 52,000 square feet.

Building C provides space for the departments of Physiology, Physical Chemistry, Biochemistry, and Experimental Surgery. In this building each wing has four floors and a total floor space of 62,000 square feet.

Building D is occupied by the departments of Bacteriology, Pathology, and Tropical Medicine. In this building there are five floors in one wing and three floors in the other, with a total floor space of over 48,000 square feet. The Animal House is between buildings B and D.

Building E houses Pharmacology, Preventive Medicine, and Comparative Pathology. There are three floors in one wing and four floors in the other, with a floor space of 35,000 square feet.

The outline plan of the buildings and their position is shown on p. 20.

The clinical departments are housed in the various hospitals associated with the School. Vanderbilt Hall, the dormitory for medical students, is immediately adjacent to the Medical School buildings.

LIBRARIES

The joint library of the Medical School and the School of Public Health is on the second floor of the Administration Building, and in the other buildings are branch libraries. By an arrangement with the Peter Bent Brigham Hospital, library facilities for the hospital are available. This library is open from 9 A.M. until 10 P.M., on Saturdays from 9 A.M. until 5 P.M. and on Sundays from 2 P.M. until 6 P.M. During the summer vacation, the Library is open on week days from 9 A.M. until 10 P.M., on Saturdays from 9 A.M. until 12 M., and on Sundays is closed throughout the day. The present number of volumes in the library is 63,329 and in addition there are 183,324 pamphlets and 500 current periodicals kept on file.

The College Library at Cambridge is open to the students of this School.

The Boston Public Library is open to students who are residents of Boston. Students, not residents of Boston, who have filed a bond at the Bursar's office, may also use this library. The Bursar will furnish on application the necessary certificate of bond.

The Boston Medical Library, No. 8 The Fenway, contains about 171,785 bound volumes and 117,502 pamphlets, and approximately 926 current periodicals are on file. This very valuable library is open to those who desire to consult medical literature, on week days from 9.30 A.M. to 6 P.M., and on Monday, Wednesday, and Friday to 10 P.M.

LECTURESHIPS

The Cutter Lectures on Preventive Medicine were established in 1912 under the deed of gift contained in the will of Dr. John Clarence Cutter. These lectures are given annually and are open to the medical profession.

The Edward K. Dunham Lectures for the promotion of the medical sciences have been given annually since 1923 by eminent investigators and teachers in one of the branches of the medical sciences or of the basic sciences which contribute toward the advance of medical science in the broadest sense. The lectures are open to the Faculty and students of the Harvard Medical School and College and all other interested professional persons. The lectures are given under the fund established for that purpose by Mary Dows Dunham in memory of her husband, Dr. Edward K. Dunham.

The George W. Gay Lectures upon Medical Ethics are given annually at the Harvard Medical School. The fund for the establishment of these lectures was given in 1917 by Dr. George W. Gay.

WARREN ANATOMICAL MUSEUM

The Warren Anatomical Museum was founded in 1847 by JOHN COLLINS WARREN, of the College Class of 1797, Adjunct Professor of Anatomy and Surgery from 1809 to 1815, Hersey Professor of Anatomy and Surgery from 1815 to 1847, Professor *Emeritus* from 1847 to his death in 1856, son of JOHN WARREN, the first Hersey Professor of Anatomy and Surgery. This important Museum is open to students in the School, and its collections are used in demonstration of the lectures. It occupies the upper three floors of the Administration Building. Myrtelle M. Canavan, M.D., is Curator.

The collection has over twenty thousand specimens, illustrating both normal and pathological anatomy. Students and graduates may have access to these specimens, during Museum hours, upon application to the Curator, Myrtelle M. Canavan, M.D.

Besides dissections and serial sections of bones, the anatomical collection includes many injections, corrosion preparations, models and groups of bones, notably the Dwight collection of spines, hands and feet, and the Tello collection of skulls. A section of neuropathology is growing larger and is suitable for teaching.

The pathological collection of "hand" specimens, conveniently housed in 40-gallon tanks, is for the use of students, and mounted specimens illustrate the major diseases.

There is a collection of medico-legal material which has a section to itself and forms a basis for teaching.

The American Ambulance of Paris has contributed a number of specimens from the European War, especially interesting for a student of military surgery.

HOSPITAL FACILITIES

The transfer in 1810 of the Medical School of Harvard University from Cambridge to Boston was made in order to secure the advantages of the larger clinical facilities which are to be found in large cities. Clinical advantages from the students' viewpoint are not a matter of large hospitals only, but rather are related to the number of patients in these hospitals who are under the care of instructors on the staff of the Medical School and available for teaching purposes. This School is closely affiliated on the above basis with the hospitals described in the following list, thus offering Harvard Medical School students an unrivaled opportunity to secure a well-organized clinical experience and knowledge of disease. Each student comes into intimate contact, under supervision, with patients in these hospitals, beginning in the second half of the second year and increasing until the fourth year, when the students serve as clinical clerks and give their whole time to the study of patients.

The Massachusetts General Hospital. — This is a general hospital associated with the Medical School since its foundation in 1821. There are services in Medicine, Surgery, Pediatrics, Dermatology, Genito-Urinary Diseases, Orthopaedics, Neurology, Psychiatry, and Syphilis, all of which are used in giving instruction in these special departments of medicine. The hospital has 769 beds, 424 of them being available for teaching purposes. In the General Hospital 8,205 patients were admitted in 1935, and there were 136,479 patients' days treatment. Large out-patient departments are also used for instruction in the above clinical subjects. 38,088 new patients were admitted to the out-patient department last year for a total of 298,471 visits. 14,146 patients were treated in the Emergency Ward. Laboratories in Pathology, Chemistry, Metabolism, Medical and Surgical Research, and X-ray are maintained, and there is an excellent medical library, all of which are open to students in the Medical School.

The Massachusetts Eye and Ear Infirmary. — There are 231 beds in this hospital, 189 of which are used for instruction in diseases of the eye, ear, nose and throat. In 1935, 5,665 patients were treated in the wards, and there were 43,454 patients' days treatment. Last year there were 99,680 out-patient visits. There were 2,811 patients treated in the Emergency Ward. Pathological and X-ray laboratories are maintained.

The Boston City Hospital. — This hospital which, in all its divisions, contains 2,377 beds (including 357 bassinets and cribs) 1,421 of which are in the main hospital and all of which are available for teaching purposes, serves as one of the teaching units for the Medical School. The 2d and 4th Medical services, the 5th Surgical, the Neurological and Pathological services are under the direction of Professors at the Harvard Medical School. In addition there are divisions of Gynaecology, etc., open to medical students. In the out-patient department (main hospital and two Relief Stations), 135,500 patients applied for diagnosis

and treatment during the year 1935. They furnish additional teaching material. Postgraduate teaching is also carried on. Clinical laboratories are maintained for research in pathology, nephritis, diabetes, basal metabolism, blood, immunology, neurology, and surgery. The Thorndike Laboratory is the medical research department. A department for surgical research was opened in 1930. There are neurosurgical, pediatric, urological and orthopaedic services. The X-ray service is very large and important. Instruction to medical students is given here daily. There is an excellent library, including 139 current medical journals. There is a House Officers' Residence, a brick building of seven stories and basement. The building includes sun rooms, lounges, swimming pool, squash courts, etc., for recreation.

The Peter Bent Brigham Hospital. — This hospital has been closely associated with the Medical School since its dedication in 1913. It is for general medical and surgical cases, and is situated on grounds adjacent to the Medical School buildings. There are 246 beds, all of which are used for teaching purposes. There is also maintained an out-patient service for ambulatory medical and surgical patients to which 7,461 new patients applied during the past year. The total number of visits was 77,728. There are well-equipped medical, surgical, and pathological laboratories. The hospital, by special arrangement, makes use of the library of the Medical School.

The Beth Israel Hospital. — This is a general hospital with a capacity of 225 beds (including 15 pediatric beds), 120 of which are available for teaching. The institution is located on Brookline Avenue around the corner from the Harvard Medical School. The Hospital is equipped for teaching and research, having laboratories for research in surgery, medicine, and pathology, each under the direction of a full-time physician who is associated with the Faculty of the Harvard Medical School. There are also electrocardiograph and basal-metabolism laboratories, animal research equipment, and an extensive X-ray department. 5,292 patients were admitted to the hospital last year and spent 51,631 patients' days in the institution. There were 4,189 new patients admitted to the out-patient department during the year and a total of 58,541 visits made.

The Children's Hospital. — Located on Longwood Avenue, adjacent to the Medical School. A specialized hospital for the care of sick children up to twelve years of age. The hospital maintains medical, surgical, and orthopaedic services with their associated branches, neurological, contagious, nose and throat, physiotherapy and scoliosis departments. There are 283 beds of which 241 are available for teaching. During the year there were 5,893 cases treated in the wards, and 62,522 in the Out Patient Department. Pathological, Bacteriological and Chemical Laboratories are provided for the study of material from the wards and out-patient service.

The Infants' Hospital (Thomas Morgan Rotch Jr. Memorial Hospital for Infants). — This hospital is adjacent to and under the management of the Children's Hospi-

tal. There are 50 beds, all of which are devoted to the care of infants. 753 were treated during the year. All of the cases in this hospital are available for teaching.

The Boston Lying-in Hospital. — This hospital occupies a building completed in 1923 at 221 Longwood Avenue. Of the 150 beds, 132 are used for teaching. During the past year 3,402 patients received treatment in the hospital, of whom 2,728 were delivered. In addition, in the out-patient department, 1,008 cases were attended under supervision by third and fourth year students. Chemical, pathological, and bacteriological laboratories and a well-equipped X-ray department are available for research.

The Free Hospital for Women. — This hospital is devoted exclusively to the surgical treatment of diseases peculiar to women. The hospital has a capacity of 97 beds, of which 65 are available for teaching. In the out-patient department there are about 12,000 consultations yearly. Library and laboratory facilities are available.

Boston Psychopathic Hospital. — This is a state institution for acute, curable, incipient, and doubtful cases of mental disease. The hospital was opened to patients in June, 1912. It has 100 beds, all of which are available for teaching, and receives patients at the rate of about 2,000 a year. The hospital is equipped with psychological, neuropathological and biochemical laboratories. The out-patient department receives patients at the rate of about 1,000 a year. In addition to the psychoses and neuroses, the clinical material includes cases of mental defect and disorder in childhood, and of delinquency.

The Collis P. Huntington Memorial Hospital and the J. Collins Warren Laboratory of Bio-Physics. — This hospital and laboratory of the Cancer Commission of Harvard University afford opportunity for the study of human tumor cases. The aim of the hospital is to study special problems concerning the natural history and the treatment of tumors. It affords a means for early diagnosis, treatment, or advice regarding therapeutic measures. There are 22 beds, all of which are available for teaching purposes; out-patients are received at stated hours. During the past year, 1,433 new patients were treated in the house and out-patient department.

House of the Good Samaritan. — This hospital is situated at 25 Binney Street, Boston, adjacent to the Medical School. There are 80 beds devoted to the care and study of rheumatic heart disease. 188 patients were admitted in 1935. The hospital has a research department for the study of rheumatic fever and heart disease. All beds are available for teaching.

New England Deaconess Hospital. — 295 beds. Includes George F. Baker Clinic and Palmer Memorial Unit. George F. Baker Clinic is especially equipped for diabetics and study of the disease. Palmer Memorial is devoted to cancer and chronic disease; has two grams of radium, a large emanation plant, a new

400,000 volt X-ray therapy machine and social service and out-patient departments. It also has efficient laboratories — chemical, pathological, and research.

The Middlesex County Sanatorium, 775 Trapelo Rd., Waltham, Mass. — This institution was established in 1931 for the control of tuberculosis in Middlesex County. Patients in all stages of pulmonary tuberculosis are admitted. There are 252 beds available for teaching purposes. Complete X-ray and laboratory facilities are maintained; ultra violet light and other special forms of treatment are available. A large number of ambulatory patients are treated in the out-patient department. A special feature of the sanatorium is the diagnostic service rendered to physicians where cases of any suspected lung disease as well as contact cases of pulmonary tuberculosis may be referred for examination and laboratory study. These diagnostic clinics are conducted by members of the staff at several centers within the county. The clinic at the sanatorium is used for teaching purposes.

HOSPITAL APPOINTMENTS

About eighty appointments as internes are made annually to hospitals in and about Boston for terms of service varying from six months to two years. These appointments are made after a competitive examination.

THE CANCER COMMISSION OF HARVARD UNIVERSITY

Under the will of the late Mrs. Caroline Brewer Croft a sum of money was received in 1899 for the investigation of the cause and treatment of cancer. Since that time other sums have been contributed for cancer research and the Cancer Commission of Harvard University has been organized. The President of the University is Chairman of the Commission. Its work is carried on chiefly at the Collis P. Huntington Memorial Hospital and its laboratories.

HARVARD INFANTILE PARALYSIS COMMISSION

The Commission was appointed by the Corporation September 25, 1916, and is devoted to the treatment of those afflicted with infantile paralysis and to the study of the cause and means of transmission of the disease. The Commission also acts in an advisory capacity to the Massachusetts State Department of Health and coöperates with the Vermont Board of Health. It is supported entirely by public subscription and receives no financial support from Harvard University.

The members of the Commission are: Roger Pierce, *Chairman*, Richard C. Curtis, *Treasurer*, W. Lloyd Aycock, M.D., Frederick Ayer, C. Sidney Burwell, M.D., Henry D. Chadwick, M.D., Hermann F. Clarke, Homer Gage, M.D., Arthur T. Legg, M.D., James J. Minot, Jr., Robert B. Osgood, M.D., Redfield Proctor, Richard M. Smith, M.D., Charles H. Taylor, and Hans Zinsser, M.D.

HARVARD EPILEPSY COMMISSION

A Commission for the study of epilepsy was appointed by the Corporation in June 1928.

The Commission plans to conduct research into the various convulsive conditions in coöperation with various hospitals and the Department of Neuropathology of the School. At present, particular attention is being devoted to the biochemical aspects of the disease and to the study of cerebral circulation in relation to convulsions, but the Committee stands ready to investigate any promising suggestions. Fritz B. Talbot, M.D., *Chairman*, Walter B. Cannon, M.D., Stanley Cobb, M.D., Bronson Crothers, M.D., Christian A. Herter, Halfdan Lee, *Treasurer*, William G. Lennox, M.D., Ralph Lowell.

PROCTOR FUND

A bequest of fifty thousand dollars by Ellen Osborne Proctor, for the purpose of promoting the study of chronic diseases, subsequently has been increased by an additional fifty thousand dollars from another member of the Proctor family. The income of this fund is to be devoted to investigations into the nature and treatment of chronic diseases and the care of persons afflicted with these diseases while in hospitals for such investigations. The special disposition of the income of this fund is under the control of a committee composed of the professors of Theory and Practice of Physic, Clinical Medicine, and Pathology. Henry A. Christian, M.D., is Chairman of the Proctor Fund Committee. Applications for grants should be sent to Dr. Christian, preferably on May 1st of each year.

WILLIAM W. WELLINGTON FUND

In 1925 a bequest was received from William H. Wellington to establish the "William W. Wellington Memorial Research Fund." The income of this fund is to be applied for research concerning the etiology and therapeutics of the diseases of man, and is to be administered by a Committee composed of the heads of the departments of Pathology, Medicine, and Pharmacology. S. Burt Wolbach, M.D., is the Chairman.

COURSES FOR GRADUATES

The object of this division of the Medical School is to offer to graduates in Medicine opportunities to continue their studies in a thorough and scientific manner.

While all courses are intended primarily for those who hold degrees from recognized medical schools, certain courses in the scientific subjects are adapted to the needs of advanced students and teachers of science. Such persons may be admitted to courses on the approval of the Administrative Board.

Undergraduate students of medicine may be admitted to such courses as they are qualified to take. Special consideration for the needs of such students will be given in the plans for summer courses.

Laboratory facilities at the Harvard Medical School and the abundant clinical opportunities in the various hospitals are available for graduate instruction. Frank R. Ober, M.D., Assistant Dean, is in charge.

SCHOOL OF PUBLIC HEALTH

This School was opened in 1922. Its object is to provide the scientific groundwork which underlies efficient health administration.

Courses in Bacteriology, Parasitology, Epidemiology, Communicable Diseases, Tropical Medicine, Public Health Administration, Ecology, Nutrition, Vital Statistics, Sanitation, Child Health, Industrial Hygiene are offered, which aim to train the student to become an intelligent Public Health official. Opportunity is also given to students wishing to pursue research in Public Health. Any course may be taken singly, or a student may devote a considerable period of time to one subject. For further information, apply to the Secretary.

FELLOWSHIPS AND SCHOLARSHIPS

FELLOWSHIPS

*Applications for fellowships should be in the hands of the Dean on or before
February 1*

The amount of the stipend of the Fellowships and Scholarships is approximate only and contingent upon the income of the University.

Students who marry while on a fellowship will forfeit the fellowship unless at the time of their application they have notified the Committee of their intention to marry.

AUSTIN FELLOWSHIPS. A certain number of teaching fellowships have been established from the income of the Austin Fund and assigned to the Medical School. Each, \$900

EDWARD HICKLING BRADFORD FELLOWSHIP. Established in 1918 by an anonymous gift. The Fellowship may be used for research or instruction separately or in connection with any other foundation in such manner as the Corporation may from time to time prescribe. \$1,425

THE JOHN WHITE BROWNE SCHOLARSHIP. Established under the will of Mrs. Francis B. Greene in 1918. This scholarship is to be awarded by the Dean of the Medical School to a young man (graduate or matriculated student) of unusual promise, to enable him to pursue research investigations for a year at the Harvard Medical School or elsewhere. \$1,175

BULLARD FELLOWSHIPS. Established in 1891 by a gift from WILLIAM STORY BULLARD of Boston, "in memory of three physicians who were distinguished for their honorable personal character and for their professional services in this community." The three following fellowships were established: —

THE GEORGE CHEYNE SHATTUCK MEMORIAL FELLOWSHIP . . .	\$375
THE JOHN WARE MEMORIAL FELLOWSHIP	375
THE CHARLES ELIOT WARE MEMORIAL FELLOWSHIP	375

The income from any one or all of these fellowships may be paid to any student or member of the medical profession who shall be selected by the Administrative Board of the Medical School to make such original investigations in Medical Science as in their opinion will be most useful to the profession and to the community. The results of such investigations shall not, however, be published as a research performed under the grant of a Bullard Fellowship, unless the work shall have received the approval of the Committee. If published with the approval of the Committee, mention shall be made of the fact that the work was done under a Bullard Fellowship.

Holders of Bullard Fellowships are required to do an amount of work equivalent to not less than ten hours a week throughout the academic year and to present to the Committee at the end of the academic year a report on the amount and result of the work performed. There are offered also from School research funds other students' research fellowships of \$300 each under similar conditions.

ARTHUR TRACY CABOT FELLOWSHIP. Established in 1913 by a gift from Dr. and Mrs. Frederick Cheever Shattuck, in memory of Arthur Tracy Cabot, A.B. 1872, M.D. 1876. The holder of the Fellowship is not ordinarily to engage in active private practice while holding it but is to devote himself to the advancement of surgery whether in the United States or elsewhere. The nomination to this Fellowship is, by preference, to be in the hands of the Moseley Professor of Surgery. \$1,475

THE JAMES JACKSON CABOT FELLOWSHIP. Established in 1906 by a gift from Arthur T. Cabot, Samuel Cabot, and Guy C. Cabot. In 1912 Guy C. Cabot added to this fund. The income remaining after adding a certain percentage to the principal each year is preferably, but not necessarily, to be used for a fellowship "to aid and encourage practical work in scientific medicine." \$625

CHARLES FOLLEN FOLSOM TEACHING FELLOWSHIP. Established in 1908 by gifts from more than sixty persons in memory of Charles Follen Folsom, A.B. 1862, M.D. 1870, Lecturer on Hygiene, 1877-79, on Hygiene and Mental Diseases, 1879-80, on Mental Diseases, 1880-82; Assistant Professor of Mental Diseases, 1882-85, and Overseer, 1891-1903. It was the desire of the givers that there be established in the Medical School a Charles Follen Folsom Teaching Fellowship in Hygiene or in Mental and Nervous Diseases, and that the incumbent receive the annual income of the fund, or such part of it as may be consistent with the standing rules of the Corporation in such cases. This fellowship has been assigned to the Department of Hygiene until the further order of the President and Fellows. \$775

WILLIAM O. MOSELEY, JR., TRAVELLING FELLOWSHIPS. Established in 1912 by a bequest of Mrs. William O. Moseley for men who have attended the School for three or four years, for further study in Europe. Either two or three Fellowships will be awarded from the income, which is approximately \$5,400.

FRANCIS WELD PEABODY MEMORIAL FELLOWSHIP (1929). To be awarded on the recommendation of the Dean and full professors of Medicine in charge of the

clinics of the Boston City Hospital, the Massachusetts General Hospital, and the Peter Bent Brigham Hospital, to properly qualified graduates of medical schools to enable them to devote further time to intensive clinical and laboratory studies. \$2,500

THE JEFFREY RICHARDSON FELLOWSHIP. Established in 1933 by a gift from William Lambert Richardson, A.B. 1864, M.D. 1867. To be awarded each year to some deserving student, upon his graduation from the Harvard Medical School, who desires to continue his studies either here or abroad. \$1,775

HENRY P. WALCOTT FELLOWSHIP IN CLINICAL MEDICINE. Founded in 1910 by Dr. Frederick Cheever Shattuck. "The income to provide for the support of a Fellow in Clinical Medicine, who shall receive his appointment from the Corporation on nomination by the Jackson Professor of Clinical Medicine, who, while the holder of the Fellowship, shall not engage in private practice but devote his time to teaching and clinical research work." \$1,775

THE WHITMAN FUND. Established in 1933 by Mrs. Bernard C. Whitman in memory of her husband Bernard C. Whitman, A.B. 1846, and of her son Crosby C. Whitman, A.B. 1886. The income is available for a graduate of Harvard Medical School pursuing the study of medicine or surgery at the École de Médecine de Paris. \$432

DR. WILLIAM HUNTER WORKMAN SCHOLARSHIP. Established in 1925 by a gift from William Hunter Workman, M.D. 1873, to enable one or more graduates of the Harvard Medical School to pursue postgraduate studies in medicine in this country or abroad. In exceptional cases, fourth year students will be eligible. \$1,300

SCHOLARSHIPS

HARVARD MEDICAL SCHOOL PRIZE SCHOLARSHIPS

In order to make it possible for young men of outstanding ability and promise to come to the Harvard Medical School, one or two Harvard Medical School Prize Scholarships will be offered in 1937 to incoming members of the First Year Class. These scholarships will carry a stipend sufficiently large, if necessary, to meet all the student's essential expenses. Successful applicants who maintain a high honor record at the Medical School will continue to hold these scholarships throughout the Medical School course.

The offer of these scholarships is made possible by gifts from Mr. Edward S. Harkness and Dr. Daniel F. Jones. The donors express the hope that through these scholarships superior men who would otherwise not receive a medical education will be enabled to attend the Harvard Medical School. They also express the hope that some of these men may wish to return to their own communities to carry on the practice of medicine.

Since these fellowships are regarded as prizes to be competed for by all students whatever their financial circumstances, the stipend will vary from a minimum of

\$100 to a maximum of \$1,000, depending on the financial resources of the recipient.

The following scholarships are open only to students who are members of the School at the time of application.

The Cheever, Greene, Haven, and Mears Scholarships are awarded to students of the first year class. The Hayden and Webster Scholarships may be so awarded. All the other scholarships are awarded to members of the three upper classes.

Scholarships and gratuities are awarded to such men among those applying for and needing assistance as give evidence of having done the best work in this School.

Information with regard to all forms of pecuniary aid may be obtained from the Dean's Office. Students requiring aid should visit the Dean's Office as soon as possible after matriculation to discuss their financial needs.

Applications from second, third, and fourth year students must be made on or before *May 15, 1937*.

Applications from first year students must be handed in to the Dean's Office on or before *January 15, 1937*.

EDWARD M. BARRINGER SCHOLARSHIP No. 1	\$300
EDWARD M. BARRINGER SCHOLARSHIP No. 2	200

From the estate of Edward M. Barringer for the maintenance of two scholarships for students in the Harvard Medical School, these scholarships are awarded to deserving students, preference being given to those of the fourth year class.

THE GORDON BARTLETT SCHOLARSHIP. Established in 1919 by Mr. and Mrs. Donald Gordon in memory of their nephew, Gordon Bartlett, a student at Dartmouth College who died of wounds at St. Mihiel while serving in the Seventeenth Field Artillery. Preference is given to graduates of Dartmouth College. This scholarship will ordinarily be divided between two men. \$500

THE MATTHEW AND MARY E. BARTLETT SCHOLARSHIP. Founded by Miss Fannie Bartlett of Boston, in memory of Matthew and Mary E. Bartlett, for the benefit of a worthy and meritorious student who is in need of financial assistance. \$550

LUCIUS F. BILLINGS SCHOLARSHIP. Founded in 1900 from a bequest under the will of Lucius F. Billings. The income may be divided between two or more students. \$275

DAVID WILLIAMS CHEEVER SCHOLARSHIP. Founded in 1889 by David Williams Cheever, A.B. 1852, M.D. 1858., LL.D., of Boston. It is to be awarded to a poor and meritorious student of the first year, after three months' probation in the Medical School. \$375

COTTING GIFT. Received from the late Benjamin E. Cotting, A.B. 1834, M.D. 1837, to be given to such medical student or students as the Administra-

tive Board may select, having regard to the pecuniary needs, intellectual capacity, faithfulness and earnest endeavor, rather than to highest scholarship merely. \$175

ORLANDO W. DOE SCHOLARSHIP. Established as a part of the bequest of Orlando Witherspoon Doe, A.B. 1865, M.D. 1869. "To be given annually as a scholarship to a deserving student in the Medical department." \$175

JOSEPH EVELETH SCHOLARSHIP. Founded from the residuary bequest made by Joseph Eveleth, of Boston, "for aiding deserving and indigent young men in obtaining an education in said College or any of the schools connected therewith." *Three, each* \$225

HORACE PUTNAM FARNHAM SCHOLARSHIP. Founded in 1918 from a bequest under the will of Mrs. Horace Putnam Farnham as a memorial to her husband, for the benefit of meritorious students of limited pecuniary resources in the Harvard Medical School. *Two, each* \$300

CHARLOTTE GREENE SCHOLARSHIP. Founded in 1925 by Edwin Farnham Greene, for the benefit of a first year student whose previous record indicates special promise. \$225

DR. C. EUGENE GUNTHER SCHOLARSHIP. Established in 1933 from a bequest of Mrs. C. Eugene Gunther, in memory of her husband, the income to be used to maintain two scholarships for the benefit of deserving medical students. *Two, each* \$400

GEORGE HAVEN SCHOLARSHIPS. Founded in 1913 from a bequest under the will of George Haven, the income to be used annually for scholarships for deserving students of the first year in the Medical School, the amount of such scholarships to be at the discretion of the Scholarship Committee. \$1,150

THE LEWIS AND HARRIET HAYDEN SCHOLARSHIP for colored students. Founded in 1894 from a bequest of Mrs. Harriet Hayden. The income may be divided between two or more students. If not awarded in the Medical School or in the School of Public Health, it is open to colored students in any other department of the University. \$300

HILTON SCHOLARSHIP. Founded in 1897 from a bequest of William Hilton. *Two, each* \$275

WILLIAM OTIS JOHNSON SCHOLARSHIP. Founded in 1912 from a bequest under the will of Mrs. William O. Johnson, in memory of her husband, William Otis Johnson, A.B. 1845, M.D. 1848. \$225

CLAUDIUS M. JONES SCHOLARSHIP. From a bequest of six thousand dollars by Claudius Marcellus Jones, A.B. 1866, M.D. 1875. \$350

ALFRED HOSMER LINDER SCHOLARSHIP. Founded in 1895 by Mrs. George Linder. It is to be awarded to a needy student who shall have proved himself to be of sound principles and marked ability. \$300

JAMES EWING MEARS, M.D. SCHOLARSHIP IN MEDICINE. In 1920 a bequest from the estate of J. Ewing Mears established a scholarship in the Medical School in continuance of one which Dr. Mears gave during his life. To be awarded to a young man whose financial resources are such that he cannot, unaided, acquire a medical education; the beneficiary shall hold the scholarship for the full course of four years, subject to his standing in scholarship and his good conduct. Available 1936-37. \$225

The JOSEPH PEARSON OLIVER SCHOLARSHIP. Founded in 1904 by patients of the late Joseph Pearson Oliver, M.D. 1871, to be awarded to a needy and deserving student of the Medical School. \$475

CHARLES B. PORTER SCHOLARSHIP. Founded in 1897 from a bequest of five thousand dollars by William L. Chase. \$300

FLAVIUS SEARLE SCHOLARSHIP. Established in 1921 from a bequest of Miss Mary L. Searle of Boston, in memory of her father, Dr. Flavius Searle. The stipend may be divided. \$300

CHARLES PRATT STRONG SCHOLARSHIP. Founded in 1894 by friends and patients of the late Charles Pratt Strong, A.B. 1876, M.D. 1881. \$275

ISAAC SWEETSER SCHOLARSHIP. Founded in 1892 by Mrs. Anne M. Sweetser. The income is to be "devoted to the aid of poor students of ability who would not otherwise be able to continue the studies necessary for their profession." \$375

The JOHN THOMSON TAYLOR SCHOLARSHIP. Founded in 1899 by Mrs. Frederic D. Philips in memory of her brother, John Thomson Taylor. The income is to be paid to some meritorious undergraduate of the Medical School without regard to his pecuniary circumstances. \$300

The WALKER SCHOLARSHIPS. In 1922 Miss Leslie Walton Walker left a bequest of \$28,000 for the establishment of four scholarships for the benefit of four needy and deserving students of the Medical School, as the Administrative Board shall annually recommend. These scholarships will be known as

The DR. CHARLES WALKER SCHOLARSHIP	\$325
The HELEN L. WALKER SCHOLARSHIP	325
The ANNA G. WALKER SCHOLARSHIP	325
The LESLIE W. WALKER SCHOLARSHIP	325

ABRAHAM A. WATSON SCHOLARSHIP. Established in 1923, from the estate of the late Miss Catherine E. Walker, the income to be used "as a scholarship for the benefit of students in the Medical School." \$450

EDWARD WIGGLESWORTH SCHOLARSHIP. Founded in 1897 by the family of the late Edward Wigglesworth, A.B. 1861, M.D. 1865, the yearly income of the fund to be paid to a needy and deserving student of the Medical School. \$300

FELLOWSHIPS AND SCHOLARSHIPS AVAILABLE IN OTHER DEPARTMENTS OF
THE UNIVERSITY AS WELL AS IN THE MEDICAL SCHOOL

Unless otherwise stated, applications should be made, before *February 10*, to the Dean of the Medical School.

THE DANIEL A. BUCKLEY SCHOLARSHIPS; for graduates of the public schools of the city of Cambridge.

THE VICTOR EMMANUEL CHAPMAN MEMORIAL FELLOWSHIP; with an income at present of one thousand four hundred and fifty dollars. Founded in 1917 by a number of persons who gave jointly the sum of approximately twenty-five thousand dollars in memory of VICTOR EMMANUEL CHAPMAN, of New York, of the Class of 1913, who was killed in action over Verdun, June 23, 1916, while a member of the Flying Corps of the French Army. This fellowship is to be assigned to a French youth (or youths) for study in some department of Harvard University. Application should be made to Professor Émile Legouis of the University of Paris.

THE JOSEPH HODGES CHOATE MEMORIAL FELLOWSHIP; with a stipend of one thousand nine hundred dollars. Established in 1919 by the Harvard Club of New York City in memory of JOSEPH HODGES CHOATE, of the Class of 1852, American Ambassador to Great Britain from 1899 to 1905. To be awarded, upon the nomination of the Vice-Chancellor of the University of Cambridge, England, to a British subject coming from the University of Cambridge to study in any department of Harvard University. The terms at present require that the candidate shall be either a Bachelor of Arts of not more than three years' standing from the time of taking his degree, or a matriculated undergraduate of not more than three years' standing from the date of his matriculation.

THE PARKER FELLOWSHIPS. Established in 1873 in memory of John Parker, Jr., for the instruction, education, and maintenance of one or more students of eminent natural talents or genius for some one or more of the sciences taught in the University. Available for study at the University or in foreign countries.
One or more, each \$1,500

THE PRINCETON FELLOWSHIP; with a stipend of five hundred and fifty dollars. From a graduate of Princeton University, to be awarded to a graduate of that University studying in any department of Harvard University.

THE JAMES A. RUMRILL SCHOLARSHIP; with a stipend at present of four hundred dollars. This Scholarship, founded in 1909 by Mrs. JAMES A. RUMRILL, in memory of her husband, JAMES AUGUSTUS RUMRILL, of Springfield, Mass., of the Class of 1859, will be offered each year to a properly qualified graduate of a college or university in Virginia, North Carolina, South Carolina, Florida, Georgia, Tennessee or Kentucky.

THE FREDERICK SHELDON FUND FOR TRAVELLING FELLOWSHIPS. The income of this Fund is available for holders of any degree from Harvard University. About sixteen fellowships are awarded, the maximum amount being \$1,500

THE STOUGHTON SCHOLARSHIP. Established in 1701 from a bequest of Lieutenant Governor WILLIAM STOUGHTON. The income of three thousand six hundred and fifty dollars is available for one or more students in any department of the University, preference being given first to students of Dorchester and second, if there be none such, to students of the town of Milton.

ANNA VAUGHN FOUNDATION. The income to be used to aid meritorious students of Harvard University who are pursuing studies in any biological science. \$125

Major HARRISON BRIGGS WEBSTER, U. S. ARMY, SCHOLARSHIP. Established in 1921 by Mrs. L. Florence Webster in memory of her son, Harrison Briggs Webster, A.B. 1905, Harvard College, 1909, Harvard Medical School, Regimental Surgeon of the 47th U. S. Infantry, awarded a Citation "For unusually conspicuous and meritorious services," and a second Citation, with the Distinguished Service Cross, "For extraordinary heroism in action." Killed in action in the Meuse-Argonne, October 13, 1918. This scholarship is to be awarded to sons of members of the Class of 1905, Harvard College. In case there is no application or award made in any year, the scholarship shall be awarded for that year to a needy student who shall have shown himself to be of sound principles and marked ability. \$225

OTHER SCHOLARSHIPS. The following Fellowships and Scholarships, open to students in other Departments of the University, are available also for students in the Medical School: Ellen S. Bates, Baxendale, Bright, Caspar Henry Burton, Jr., Charles Downer Fund, Charles W. Holtzer, Alan Hudson, Lincoln, Frederick E. Parlin, Aristides Evangelus Phoutrides, Franklin Reynolds, 1902 World War Memorial, and Jeffries Wyman (for biological research). There are also scholarships for students from certain states and localities, for descendants of donors, and for men nominated by Harvard Clubs.

Further information about these scholarships may be obtained from the *University Catalogue* for 1936-37.

LOAN FUNDS

Apply at Dean's Office

Funds have been established from which students who are in need of money may make applications for loans.

Applications for the ensuing year must be made by May 15th, but in an unforeseen emergency at other times. Loans are made to meet term-bills and cash is provided rarely. Amounts up to \$400 may be loaned to a student during any one year, and up to a total of \$1,000 during the course. Notes are payable two years

after graduation and 5 % interest is charged. During the past year money available and loans made amounted to approximately \$11,000.

Loans will be made to students in the second, third, and fourth year classes, whose records have been sufficiently creditable to make it probable that they will remain in the School and whose other financial obligations do not make it improbable that this loan will be repaid. Recent matriculants may apply for loans only in their second half-year and then only in case of unanticipated financial difficulty. Loans will rarely be made to married students.

AESCULAPIAN CLUB LOAN FUND. Founded by the Aesculapian Club in 1925. To be used as a loan fund to aid students in the Medical School.

THE DAVID L. EDSALL REVOLVING LOAN FUND. Dr. Frederick C. Shattuck in 1927 established this fund by gift of \$100,000 to be used as a revolving loan fund. The notes are repayable two years after graduation or earlier.

HENRY EHRLICH MEMORIAL FUND. Established in 1927 by the friends and family of Dr. Henry Ehrlich. The income is to be used for the assistance of needy and worthy students regardless of creed or color.

THE CHARLES WILLIAM ELIOT LOAN FUND. The first gift to create a loan fund in honor of PRESIDENT ELIOT was made in 1924 by an anonymous donor. The principal and interest from the fund are to be used for loans to students in the Medical School.

JOHN FOSTER FUND. The income of the John Foster Fund is available in alternate years in the Law School and in the Medical School, for one or more meritorious students needing assistance. The next assignment in the Medical School will be made in 1936-37.

THE JAMES GOLDTHWAITE FREEMAN FUND. Founded in 1925 from a bequest under the will of Caroline S. Freeman for the assistance of meritorious and deserving medical students.

THE LOAN FUND OF THE MEDICAL CLASS OF 1879. The Medical Class of 1879 has given the sum of four hundred and thirty-six dollars and seventy-nine cents to be used as a loan fund to aid any student or students in the Medical School in accordance with the request of the Class, or, in the absence of such request, under the direction of the Faculty of Medicine.

FRANCIS SKINNER FUND. Established in 1905, to be used in small sums to meet the urgent needs of meritorious students in the payment of term-bills or other expenses. This fund remained as an anonymous gift until 1908, when by vote of the President and Fellows of Harvard College it was named in honor of the late Francis Skinner, Esq., the donor.

ANNOUNCEMENT OF COURSES

The "Announcement of Courses" comprises a statement by each Department as to its general plan of instruction and its various required exercises, followed by a résumé of the Fourth Year Elective Courses and the Voluntary Courses.

Each student in the fourth year must secure credit for eight one-month courses of 144 hours or their equivalent. Required courses fill seven months' time, leaving one month free for elective work. Students may anticipate certain of the required courses during the summer preceding the fourth year and thus gain more time for elective work in the fourth year; but credit for such work shall not exceed three months. In the following statements whole courses have a value of 144 hours, half-courses of 72 hours, and quarter-courses of 36 hours.

Students who devote their spare time to intensive work in a defined field will be given advice and guidance by Tutors who are freely available for that purpose. In the Fourth Year, the Faculty encourages those men who have shown suitable qualities to devote their time largely to concentrated work in a single broad field. Not more than 15% of the class is given the privilege. Men who wish it, apply individually to the Administrative Board, stating in detail their plan of work, after securing the approval of the Tutor and the teacher under whose guidance the actual work will be done. *Application for free election and tutorial work should be made late in the spring of the third year.*

An opportunity for voluntary work is offered to second and third year students on Tuesday and Thursday afternoons. It is believed that upperclassmen will welcome a chance to keep in touch with the most recent developments in the fundamental sciences; that an interest in certain fundamental subjects will have been aroused by their clinical work; or that they may feel the desire for additional training on some point. Students are not required or even asked to take this work: it is entirely a voluntary matter, and no credit will be given.

There are also opportunities for association with voluntary groups interested in studying the more general aspects of medicine, including the economic, social and historical aspects.

Special pamphlets are issued describing the opportunities for elective and voluntary work and outlining the conditions under which such work may be undertaken.

Anatomy

J. LEWIS BREMER, M.D., *Hersey Professor of Anatomy.*

FREDERIC T. LEWIS, M.D., *James Stillman Professor of Comparative Anatomy.*

GEORGE B. WISLOCKI, M.D., *Parkman Professor of Anatomy.*

ROBERT M. GREEN, M.D., *Associate Professor of Applied Anatomy and Instructor in Gynaecology and in Obstetrics.*

Note. — Abbreviations used in the following pages, and in the tabular views:

B.C.H.	= Boston City Hospital.	H.M.S.	= Harvard Medical School.
B.I.H.	= Beth Israel Hospital.	I.H.	= Infants' Hospital (Rotch Memorial.)
B.L.I.H.	= Boston Lying-in Hospital	M.C.S.	= Middlesex County Sanatorium.
B.P.H.	= Boston Psychopathic Hospital.	M.E. and E.I.	= Massachusetts Eye and Ear Infirmary.
C.H.	= Children's Hospital.	M.G.H.	= Massachusetts General Hospital.
F.H.W.	= Free Hospital for Women.	N.E.D.H.	= New England Deaconess Hospital.
H.G.S.	= House of the Good Samaritan.	P.B.B.H.	= Peter Bent Brigham Hospital.
H.M.H.	= Huntington Memorial Hospital.		

DAVID M. RIOCH, M.D., *Assistant Professor of Anatomy.*

HAROLD L. WEATHERFORD, Ph.D., *Assistant Professor of Anatomy.*

ALLAN L. GRAFFLIN, M.D., *Associate in Anatomy.* (On leave second half-year 1936-1937.)

TORR W. HARMER, M.D., *Instructor in Anatomy and Assistant in Surgery.*

EDWARD A. EDWARDS, M.D., *Assistant in Anatomy.*

KENNETH C. FARNSWORTH, M.D., *Assistant in Anatomy, in Gynaecology and in Obstetrics.*

FRANK A. HAMILTON, M.D., *Assistant in Anatomy.*

GEORGE C. PRATHER, M.D., *Assistant in Anatomy.*

WILLIAM M. SHEDDEN, M.D., *Assistant in Anatomy.*

BENJAMIN KROPP, Ph.D., *Research Fellow in Anatomy.*

In the department of Anatomy, instruction is given in gross human Anatomy, Histology, Neurology, and Embryology. Opportunities are also afforded for advanced work and investigation in these subjects.

The department occupies the Morgan Anatomical Building, the dissecting rooms being in the wing designated B I, and the laboratories for Histology and Embryology in the wing B II. There are separate rooms for fourth year and graduate students and for various kinds of technical work. The class work is carried on by sections in unit rooms, designed to accommodate either twelve or twenty-four students. There is a large library which contains complete files of the most important anatomical and morphological journals, together with many standard works of reference, and in an adjoining room there is a collection of about fifteen thousand pamphlets. A card catalogue and a classified bibliography give ready access to the literature.

The Embryological Collection is a unique feature of the laboratory. It comprises about twenty-three hundred series of sections of carefully selected vertebrate embryos, and affords therefore opportunities for research in comparative embryology such as cannot be found elsewhere. The collection includes eighty series of sections of human embryos, several of which are of exceptional value, among them being two of the very youngest stages of man yet obtained. The collection of embryological models contains the standard series and many unique original models.

REQUIRED COURSES

ANATOMY A AND B. *First Year.* — The courses of the first year are intended to teach human anatomy, both gross and microscopic, together with the essentials of human embryology and neurology. Half of the time is devoted to work in the dissecting room, the other half to work in the histological and embryological laboratories.

In the study of gross anatomy, students make a complete dissection of one half of the human body, and all of the class dissect the same part at the same time.

Four men will be assigned to the same subject, and will work together during the course. The study of the skeleton is carried on with the dissection, and each student will be provided with a box of bones which may be kept throughout the course. There will be lectures or demonstrations which are arranged to correspond as closely as possible with the work in the dissecting room. These lectures not only will serve as a guide to the regular work in the dissecting room, but also will be used to emphasize those details of human anatomy which the student cannot easily study for himself in his own dissection. Special dissections made by prosectors from the second year class, frozen sections, and various anatomical specimens and preparations will be displayed each day to illustrate and supplement that part of the subject treated in the lecture, or about to be studied in the dissecting room. Students are urged to examine these specimens carefully, and to discuss them informally with the instructors. Students will be quizzed each week on their work in the laboratory by the instructors in charge of their section.

The part of the course dealing with microscopic anatomy is designed to give the student a familiarity with the normal appearances of cells, tissues and organs. As much as is possible in a brief course, the development of tissues and organs is stressed. Opportunity is also given to some extent for the study of fresh tissues. The use of fresh tissues is intended to acquaint the student with the structure of living cells and with evidence of cellular functions. Demonstrations are given from time to time to present the range of histological technique.

The last five weeks of the course of microscopic anatomy are devoted to the study of the central nervous system. The student is given an opportunity to become familiar with the positions and relations of the principal nuclei and tracts of the nervous system by the study of gross specimens and of serial sections through the brain stem. Emphasis is laid on the anatomico-physiological point of view.

FIRST YEAR

HOURS

Lectures. Drs. BREMER, LEWIS, WISLOCKI, GREEN, RIOCH and GRAFFLIN.

Five lectures a week, first half-year.

96

Demonstrations. *To sections of the class, at the pleasure of the instructors.*

Laboratory work. *Twenty-one and a half hours a week, first half-year.*

344

FOURTH YEAR ELECTIVE COURSES

1. Surgical Anatomy. Drs. GREEN and FARNSWORTH. Whole course, four afternoons weekly, January-February.
2. Advanced Vertebrate Embryology. Dr. LEWIS. Whole course, all day, in a month to be arranged with the instructor.
3. Advanced Histology. Dr. BREMER. Whole course, all day, in a month to be arranged with the instructor.

4. Physical Anthropology. Dr. E. A. HOOTON. Whole course, to be arranged with the instructor.
20. Investigation. Opportunities are offered for students who wish to do special or advanced work.

VOLUNTARY COURSES

20. Advanced Work. Opportunities are offered for advanced work or research in embryology, histology, neurology, or (in so far as material will permit) gross anatomy.
30. Clinical Applied Anatomy. Dr. CHEEVER. Saturdays, 9 to 10 A.M., October through January, P.B.B.H. Open to first year men. (See Surgery 31.)
31. Brain-modelling course. Dr. RIOCH. Tuesdays and Thursdays, 2 to 5 P.M. October and November. Limited to 15 students. There will be a small charge for material.
32. Topographical (Clinical) Anatomy. Dr. HARMER. Tuesdays, 3.15 to 5 P.M., from October 1 to Christmas recess. Open to second, third, and fourth year students and to graduates. There will be a small charge for material.

The Laboratories of Physiology

PHYSIOLOGY

WALTER B. CANNON, M.D., S.D., LL.D., Dr.(hon.), *George Higginson Professor of Physiology.*

ALEXANDER FORBES, M.D., *Professor of Physiology.*

HALLOWELL DAVIS, M.D., *Associate Professor of Physiology.*

ARTURO ROSENBLUETH, M.D., *Assistant Professor of Physiology and Tutor in the Normal Medical Sciences.*

ROY G. HOSKINS, M.D., *Research Associate in Physiology.*

ROBERT S. MORISON, M.D., *Instructor in Physiology.*

GORDON C. RING, Ph.D., *Instructor in Physiology.*

BERNARD R. HODES, A.B., *Austin Teaching Fellow in Physiology.*

RUDOLPH V. NAUMANN, S.B., *Teaching Fellow in Physiology.*

DANIEL E. BARGETON, M.D., *Research Fellow in Physiology.*

HARRY B. FRIEDGOOD, M.D., *Research Fellow in Physiology and Instructor in Medicine.*

CARLYLE F. JACOBSEN, Ph.D., *Research Fellow in Physiology.*

MILTON O. LEE, Ph.D., *Research Fellow in Physiology.*

JULIEN P. F. MAES, M.D., *Research Fellow in Physiology.*

TEOFILO RAMÍREZ ORTIZ, M.D., *Research Fellow in Physiology.*

BENIGNA REMPEL, *Research Fellow in Physiology.*

FIORINDO A. SIMEONE, M.D., *Research Fellow in Physiology.*

HAROLD C. WIGGERS, Ph.D., *Research Fellow in Physiology.*

PHYSIOLOGY, SCHOOL OF PUBLIC HEALTH

CECIL K. DRINKER, M.D., S.D., *Professor of Physiology.*

LAWRENCE T. FAIRHALL, Ph.D., *Assistant Professor of Physiology.*

LOUIS A. SHAW, A.B., *Assistant Professor of Physiology.*

MADELEINE E. FIELD, Ph.D., *Associate in Physiology.*

J. WILLIAM HEIM, Ph.D., *Instructor in Physiology.*

REQUIRED COURSES

PHYSIOLOGY A. *First Year.* — In the lectures of this course the object is to acquaint the student with the more fundamental concepts of physiology and to consider in detail those portions of the subject that are essential to an understanding of the phenomena of health and disease in man.

The laboratory exercises aim to discipline the student in the method of experimentation as applied to the acquisition of physiological knowledge, and to give him first-hand experience with the principal types of experiment employed in the analysis of function.

Conferences and demonstrations supplement the more formal instruction.

FIRST YEAR

HOURS

Lectures and Laboratory work. Drs. CANNON, DAVIS, ROSENBLUETH, RING, and MORISON, assisted by other members of the Staff. *Three days a week, second half-year.*

232

FOURTH YEAR ELECTIVE COURSE

20. Physiological Investigation. Drs. CANNON, FORBES, DAVIS, and ROSENBLUETH. Students will not ordinarily be received for less than two full courses.

VOLUNTARY COURSES

31. Physiology of the Endocrine Glands. Drs. CANNON, ROSENBLUETH, and associates. *Second half-year; Tues. and Thurs. afternoons; 1936-37, 1938-39.* Lectures and reading.
32. Physiology of the Central and Autonomic Nervous Systems. Drs. CANNON, DAVIS, ROSENBLUETH, and associates. *Second half-year; Tues. and Thurs. afternoons; 1937-38, 1939-40.* Lectures, reading, and demonstrations.

PHYSICAL CHEMISTRY

LAWRENCE J. HENDERSON, M.D., S.D., Dr. (hon.), *Professor of Biological Chemistry.*

EDWIN J. COHN, Ph.D., *Professor of Biological Chemistry.*

RONALD M. FERRY, M.D., *Associate Professor of Biological Chemistry and Tutor in Biochemical Sciences.*

JOHN T. EDSALL, M.D., *Assistant Professor of Biological Chemistry and Tutor in Biochemical Sciences.*

THOMAS L. McMEEKIN, Ph.D., *Research Associate in Physical Chemistry.*

MARJORIE A. BENEDICT, Ph.D., *Research Fellow in Physical Chemistry.*

JESSE P. GREENSTEIN, Ph.D., *Research Fellow in Physical Chemistry.*

JOHN W. MEHL, Ph.D., *Research Fellow in Physical Chemistry.*

The department of Physical Chemistry in the Medical School is concerned with the physical chemistry of physiological systems and the characterization of their components, such as water, electrolytes, amino acids, peptides, phospholipoids and proteins in terms of physical constants defining their behavior. Special courses of investigation may be arranged to meet the needs of individual students.

FOURTH YEAR ELECTIVE COURSE

20. Physical Chemistry of Biological Substances. Drs. COHN, FERRY, and EDSALL. Investigation. Not less than one full course.

VOLUNTARY COURSE

34. Advanced Biological Chemistry. Drs. COHN, FERRY, EDSALL, SALTER, and associates. *Second half-year, Tues. and Thurs. afternoons.* Laboratory work to be arranged.

Biological Chemistry

A. BAIRD HASTINGS, Ph.D., *Hamilton Kuhn Professor of Biological Chemistry.*

CYRUS H. FISKE, M.D., *Professor of Biological Chemistry.*

HARRY C. TRIMBLE, Ph.D., *Assistant Professor of Biological Chemistry.*

MILAN A. LOGAN, Ph.D., *Associate in Biological Chemistry.*

BENJAMIN ALEXANDER, M.D., *Teaching Fellow in Biological Chemistry.*

IRVIN S. DANIELSON, Ph.D., *Teaching Fellow in Biological Chemistry.*

YELLAPRAGADA SUBBA ROW, M.B., Ph.D., *Teaching Fellow in Biological Chemistry.*

HSIEN-I CHU, M.D., *Research Fellow in Biological Chemistry.*

FRIEDRICH W. KLEMPERER, *Research Fellow in Biological Chemistry.*

JEANNE F. MANERY, Ph.D., *Research Fellow in Biological Chemistry.*

JYTTE M. MUUS, M.S., *Research Fellow in Biological Chemistry.*

REQUIRED COURSES

BIOLOGICAL CHEMISTRY A. *First Year.* — The lectures in this course consist of a brief discussion of the theories of chemical constitution and a survey of those classes of chemical substances which are to be found in animals and plants, and of the general principles and more important facts of physiological chemistry.

The laboratory practice is designed to acquaint the student with some of the more important constituents of living matter and their chemical behavior, and with some of the routine methods of biochemical investigation.

Conferences and discussions of selected topics supplement the main work of the course.

FIRST YEAR

HOURS

Lectures and Laboratory Work. Drs. HASTINGS, FISKE, TRIMBLE, LOGAN, and Assistants. *Three times a week, second half-year.* 232

FOURTH YEAR ELECTIVE COURSE

20. Advanced Work. Students who are especially interested in methods and problems of biological chemistry will be given opportunity to do advanced work.

VOLUNTARY COURSE

30. Advanced Course. Dr. HASTINGS. Time to be arranged.

Bacteriology

HANS ZINSSER, M.D., S.D., *Charles Wilder Professor of Bacteriology and Immunology.*
J. HOWARD MUELLER, Ph.D., *Silas Arnold Houghton Associate Professor of Bacteriology and Immunology.*

JOHN F. ENDERS, Ph.D., *Assistant Professor of Bacteriology and Immunology.*

FRANCIS B. GRINNELL, M.D., *Assistant Professor of Bacteriology and Immunology.*
(On leave 1936-37.)

ELLIOTT S. A. ROBINSON, M.D., Ph.D., *Assistant Professor of Applied Immunology.*
LEROY D. FOTHERGILL, M.D., *Associate in Bacteriology and Immunology and in Pediatrics.*

BENJAMIN W. CAREY, JR., M.D., *Instructor in Bacteriology and in Pediatrics.*

ROY F. FEEMSTER, M.D., Dr. P.H., *Instructor in Applied Immunology.*

WILLIAM A. HINTON, M.D., *Instructor in Bacteriology and Immunology and in Preventive Medicine and Hygiene.*

FRED W. MORSE, JR., M.D., *Instructor in Bacteriology.*

CARL T. NELSON, D.M.D., *Instructor in Bacteriology.*

ROBERT N. NYE, M.D., *Instructor in Bacteriology and Immunology.*

LOUIS L. DIENES, M.D., *Assistant in Bacteriology and Immunology.*

CHAMP LYONS, M.D., *Assistant in Bacteriology and in Surgery.*

LEO RANE, Ph.D., *Assistant in Applied Immunology.*

MORRIS F. SHAFFER, Ph.D., *Assistant in Bacteriology.*

The personnel and equipment of the Department of Bacteriology and Immunology are prepared to supply instruction and opportunities for investigation to properly qualified undergraduate and graduate students in general bacteriology, pathogenic bacteriology, and the problems of immunity.

REQUIRED COURSE

BACTERIOLOGY A. *Second Year.* — The required course for medical students is taught by lectures, laboratory work, and conferences. Stress in this course is laid upon those parts of bacteriology and immunology which are directly per-

tinient to the pathology of infectious disease, its practical diagnosis and treatment. The students are introduced as rapidly as possible to the medical problems of bacteriology, and the subjects taught are illustrated by material obtained from the associated hospitals. Immunological and serological technique in its practical aspects is dealt with by group instruction, and the preventive aspects of the physician's duties in relation to infectious diseases are considered as thoroughly as time permits.

HOURS

Lectures. Drs. ZINSSER, MUELLER, and Staff. <i>Mondays, Wednesdays, and Fridays, first half-year.</i>	48
Laboratory work. Drs. ZINSSER, MUELLER, ENDERS, and Staff. <i>Two hours, Mondays, Wednesdays, and Fridays, first half-year.</i>	96

FOURTH YEAR ELECTIVE COURSE

20. Research. The Department of Bacteriology offers opportunity for special study for one or more months. Students will be accepted for such work and the nature of their studies will be determined by individual conferences between the applicants and members of the staff of the Department.

VOLUNTARY COURSES

31. Diagnostic Serum Reactions. Dr. HINTON. Time individually arranged. Open to second, third, and fourth year students.

32. Immunity. Dr. ZINSSER. Tuesdays, 2 P.M., and Thursdays, 2.30 P.M., November through January. Open to second, third, and fourth year students and graduates.

33a. Applied Immunology (Serums and Vaccines). Dr. ROBINSON. Mondays, Wednesdays, and Fridays, 2 to 5 P.M., May. Massachusetts State Antitoxin Laboratory. Open to third year students and to students especially qualified. Limited to fifteen students and will not be given to fewer than four. Application should be made to Dr. ROBINSON at the Laboratory.

33b. Clinical Bacteriology. Dr. NYE. Tuesdays and Thursdays, 3 P.M., April. B.C.H. Limited to twelve students from the third year class, and will not be given to less than four. Application must be made at least a month in advance.

Pathology

S. BURT WOLBACH, M.D., *Shattuck Professor of Pathological Anatomy.*

FREDERIC PARKER, Jr., M.D., *Associate Professor of Pathology.*

HENRY PINKERTON, M.D., *Assistant Professor of Pathology.*

SHIELDS WARREN, M.D., *Assistant Professor of Pathology.*

GRANVILLE A. BENNETT, M.D., *Associate in Pathology.*

SIDNEY FARBER, M.D., *Associate in Pathology.*

- TRACY B. MALLORY, M.D., *Associate in Pathology.*
 MONROE J. SCHLESINGER, M.D., *Associate in Pathology.*
 IRVING B. AKERSON, M.D., *Instructor in Pathology.*
 ORVILLE T. BAILEY, M.D., *Instructor in Pathology.*
 PAUL E. BOYLE, D.M.D., *Instructor in Pathology.*
 BENJAMIN CASTLEMAN, M.D., *Instructor in Pathology.*
 GEORGE M. HASS, M.D., *Instructor in Pathology.*
 PERCY R. HOWE, D.D.S., S.D., *Instructor in Pathology and Thomas Alexander Forsyth Professor of Dental Science.*
 G. KENNETH MALLORY, M.D., *Instructor in Pathology.*
 VALY MENKIN, M.D., *Instructor in Pathology.*
 J. STEWART ROONEY, M.D., *Instructor in Pathology.*
 REUBEN Z. SCHULZ, M.D., *Instructor in Pathology.*
 GUY D. AYER, Jr., M.D., *Assistant in Pathology.*
 OTTO A. BESSEY, Ph.D., *Research Fellow in Pathology.*
 LOUIS M. HELLMAN, M.D., *Research Fellow in Pathology.*

REQUIRED COURSES

PATHOLOGY A. Second Year. — The course in Pathology consists of laboratory work and lectures. The basis of the laboratory work is a systematic course in pathological histology. In connection with this there are demonstrations of fresh material and museum specimens and experiments on animals bearing on the subjects studied. For demonstrations, autopsy attendance, and experimental work the students are divided into small sections. The demonstrations and experimental work are given in connection with the subjects which are being studied, in rooms adjoining the main laboratory which are adequately provided with apparatus. Lectures are given three days in the week by Dr. WOLBACH and staff. The object of the lecture is to expand and coördinate the knowledge which the student obtains by the study of material and to introduce important recent advances not yet incorporated in text-books. During the entire period of the course groups of students are sent to the various hospitals to see and assist in postmortem examinations. The postmortem material of the Peter Bent Brigham Hospital, the Boston City Hospital, the Massachusetts General Hospital, the Infants' Hospital, the Children's Hospital, the Boston Lying-in Hospital, the Huntington Hospital, the Palmer Memorial Hospital, the House of the Good Samaritan, and the Long Island Hospital is available for instruction. Each group prepares microscopical specimens of the tissues from each autopsy they attend, and immediately afterwards meets for a conference with one of the instructors, when the whole case is reviewed and discussed. At these conferences the clinical history of the case is read, and as far as possible the pathological findings are correlated with the clinical features. No attempt is made to separate the subject of Pathology into general pathology and pathological anatomy, but the subject is studied as a whole. The more important organs of the body are

covered, towards the end of the course, with reference to their special pathology, particularly the blood, liver, spleen, kidneys, pancreas, and genitalia. In teaching, the student is taught methods of work, is given material, and directed, but he is taught to work independently. Tumors and other material coming from the surgical clinics are made full use of in the course. Conferences and recitations will occasionally be substituted for regular laboratory work.

Demonstrations of gross material are held each teaching day in the Warren Museum, which is now an integral part of the Department of Pathology. Special space has been provided for the use of second year students. The Museum is open from Monday to Friday, 9 A.M. to 5 P.M., Saturdays 9 to 12 Noon, and it is extensively utilized by students for purposes of reviews and conferences. Free access to a large collection of unmounted gross material is permitted during museum hours. Special collections are arranged by the Curator and are kept accessible to the students for long periods throughout the teaching course.

In the mornings of January Dr. TYZZER will give a course of lectures and laboratory exercises on animal parasites, particularly the protozoa and the infections produced by them.

Approximately fifty hours are given to lectures and laboratory work in neuropathology, certain exercises being interdigitated with the course in general pathology, and twelve consecutive exercises in the more special diseases of the nervous system are given in the spring. (See Neuropathology.)

SECOND YEAR

HOURS

Lectures. Dr. WOLBACH and Staff. <i>Mondays, Wednesdays, and Fridays, for twenty-six weeks.</i>	76
Laboratory work. Dr. WOLBACH and Staff. <i>Two and a half hours, Mondays, Wednesdays, and Fridays, first half-year. Section work, two hours, Mondays, Wednesdays, and Fridays, February through March.</i>	175

FOURTH YEAR ELECTIVE COURSES

1. Advanced Pathology. Dr. T. B. MALLORY. M.G.H. Whole course, all day, or half-course, afternoons, first half-year.
2. Advanced Pathology. Dr. PARKER. B.C.H. Whole course, all day, for one or more months during the school year.
3. Advanced Pathology. Dr. WOLBACH. P.B.B.H. Whole course, all day, for two or more months during the school year.
4. The Pathology of the Endocrine Diseases. Dr. S. WARREN. N.E.D.H. Whole course, all day, offered throughout the school year.
5. The Pathology of Tumors. Dr. S. WARREN. H.M.H. and N.E.D.H. Whole course, all day, for one or more months during the school year.

6. Experimental Pathology. Dr. VALY MENKIN, H.M.S. Whole course, all day, or half course, mornings or afternoons, for two or more months, during the school year.
20. Research. Whole course, mornings or afternoons, offered throughout the year. H.M.S. Arrangements should be made with the head of the Department.

Comparative Pathology

ERNEST E. TYZZER, M.D., S.D., *George Fabyan Professor of Comparative Pathology.*

DONALD L. AUGUSTINE, S.D., *Assistant Professor of Helminthology.*

MARSHALL HERTIG, Ph.D., *Assistant Professor of Medical Entomology.*

QUENTIN M. GEIMAN, Ph.D., *Assistant in Comparative Pathology.*

DAVID WEINMAN, M.D., *Research Fellow in Comparative Pathology.*

REQUIRED COURSES

COMPARATIVE PATHOLOGY A, PARASITOLOGY. *Second Year.* — Given on Tuesday, Thursday, and Saturday mornings in January. The study of the anatomy and life cycles of the more important species of worms parasitic in the human being is provided for by fresh material for dissection, by stained sections, and by the preserved specimens of the Helminthological Collection. The student is trained to identify these parasites as they appear in the various stages of their development. Parasitic protozoa causing diseases of the human being are also considered with special reference to their identification and life cycles. Human material, cultures, and experimentally infected animals are utilized in the study of these micro-organisms. The field of medical entomology is briefly surveyed, with special reference to the arthropods which transmit human disease.

SECOND YEAR

HOURS

Lectures, demonstrations and laboratory work. Dr. TYZZER and Staff.

H.M.S. *Three times a week, during January.*

25

FOURTH YEAR ELECTIVE COURSE

- 20a. Advanced courses and research in Protozoölogy, Helminthology, and Medical Entomology may be arranged for qualified students. Drs. TYZZER, AUGUSTINE, HERTIG, and GEIMAN.

Pharmacology

WORTH HALE, M.D., *Associate Professor of Pharmacology and Assistant Dean.*

OTTO KRAYER, M.D., *Lecturer on Pharmacology.*

G. PHILIP GRABFIELD, M.D., *Associate in Pharmacology.*

CHARLES L. SHORT, M.D., *Assistant in Pharmacology and in Medicine.*

REQUIRED COURSES

PHARMACOLOGY A. In the second year the instruction is given by lectures, recitations, demonstrations, and a laboratory course in which the students have an opportunity of learning the physical and chemical properties of the more important drugs and of performing experiments illustrating the physiological actions of a number of these. A few exercises are given in pharmacy and materia medica, the work consisting of demonstrations and practical exercises. Some attention is also given to toxicology. During the fourth year an opportunity is offered to students of doing more advanced work in experimental pharmacology.

SECOND YEAR

HOURS

Lectures and demonstrations. Dr. HALE and staff. <i>One hour, three times a week, first half-year.</i>	48
Lectures, prescription writing, and quizzes. <i>One hour, three times a week, February to May.</i>	36
Laboratory work, <i>Tuesdays, Thursdays, and Saturdays, first three months.</i>	30

Legal Medicine

GEORGE BURGESS MAGRATH, M.D., A.M., *Professor of Legal Medicine.*
 WILLIAM J. BRICKLEY, M.D., *Instructor in Legal Medicine.*

REQUIRED COURSE

Third Year — A series of six lectures.

THIRD YEAR

HOURS

Lectures. Dr. MAGRATH. H.M.S. October 9 to November 13, inclusive, at 4.15 P.M.	6
---	---

VOLUNTARY COURSE

30. Legal Medicine. Dr. MAGRATH. February 4 to May 27.

Medicine

Under this Division are included Medicine and the specialties relating chiefly to Medicine: — Dermatology and Syphilology, Diseases of the Nervous System (Neurology, Neuropathology, and Psychiatry), Ophthalmology, Pediatrics, and Roentgenology.

MEDICINE

HENRY A. CHRISTIAN, M.D., A.M., LL.D., S.D., *Hersey Professor of the Theory and Practice of Physic.*
 JAMES H. MEANS, M.D., *Jackson Professor of Clinical Medicine.*
 GEORGE R. MINOT, M.D., S.D., *Professor of Medicine.*

C. SIDNEY BURWELL, M.D., LL.D., *Research Professor of Clinical Medicine and Dean*.
 JOSEPH C. AUB, M.D., *Associate Professor of Medicine*.

HERRMAN L. BLUMGART, M.D., *Associate Professor of Medicine*.

GEORGE W. HOLMES, M.D., *Clinical Professor of Roentgenology*.

ELLIOTT P. JOSLIN, M.D., A.M., *Clinical Professor of Medicine*.

WALTER BAUER, M.D., *Associate Professor and Tutor in Medicine*.

WILLIAM B. CASTLE, M.D., S.M., M.D. (hon.), *Associate Professor of Medicine and
 Chairman of the Department*.

CHESTER S. KEEFER, M.D., *Associate Professor of Medicine*.

SOMA WEISS, M.D., *Associate Professor of Medicine*.

REGINALD FITZ, M.D., *Lecturer on the History of Medicine*.

PAUL D. WHITE, M.D., *Lecturer on Medicine*.

DOUGLASS V. BROWN, Ph.D., *Assistant Professor of Medical Economics*.

PATRICK F. BUTLER, M.D., *Assistant Professor of Roentgenology*.

HENRY JACKSON, JR., M.D., *Assistant Professor of Medicine*.

CHESTER M. JONES, M.D., *Assistant Professor of Medicine*.

SAMUEL A. LEVINE, M.D., *Assistant Professor of Medicine*.

JAMES P. O'HARE, M.D., *Assistant Professor of Medicine*.

FRANCIS W. PALFREY, M.D., *Assistant Professor of Medicine*.

WILLIAM T. SALTER, M.D., *Assistant Professor of Medicine*.

MERRILL C. SOSMAN, M.D., *Assistant Professor of Roentgenology*.

FULLER ALBRIGHT, M.D., *Associate in Medicine*.

CLIFFORD L. DERICK, M.D.C.M., *Associate in Medicine*.

MARSHALL N. FULTON, M.D., *Associate in Medicine*.

DONALD S. KING, M.D., *Associate in Medicine*.

ROBERT T. MONROE, M.D., *Associate in Medicine*.

WILLIAM P. MURPHY, M.D., *Associate in Medicine*.

W. RICHARD OHLER, M.D., *Associate in Medicine*.

FRANCIS M. RACKEMANN, M.D., *Associate in Medicine*.

WILLIAM D. SMITH, M.D., *Associate in Medicine*.

HARRY BLOTNER, M.D., *Instructor in Medicine*.

AUSTIN M. BRUES, M.D., *Instructor in Medicine*.

LOWREY F. DAVENPORT, M.D., *Instructor in Medicine*.

HARRY A. DEROW, M.D., *Instructor in Medicine*.

LAURENCE B. ELLIS, M.D., *Instructor in Medicine*.

E. STANLEY EMERY, Jr., M.D., *Instructor in Medicine*.

JAMES M. FAULKNER, M.D., *Instructor in Medicine*.

MAXWELL FINLAND, M.D., *Instructor and Francis Weld Peabody Fellow in Medicine*.

MAURICE FREMONT-SMITH, M.D., *Instructor in Medicine*.

HARRY B. FRIEDGOOD, M.D., *Instructor in Medicine and Research Fellow in Physiology*.

SAMUEL L. GARGILL, M.D., *Instructor in Medicine*.

FRANCIS C. HALL, M.D., *Instructor in Medicine*.

AUBREY O. HAMPTON, M.D., *Instructor in Roentgenology*.

- CLARK W. HEATH, M.D., *Instructor in Medicine and Assistant Medical Adviser.*
ALBERT A. HORNOR, M.D., *Instructor in Medicine and Assistant in Tropical Medicine*
BERNARD M. JACOBSON, M.D., *Instructor in Medicine.*
T. DUCKETT JONES, M.D., *Instructor in Medicine.*
RICHARD B. KING, M.D., *Instructor in Medicine.*
F. WILLIAM MARLOW, JR., M.D., *Instructor in Medicine.*
ROBERT S. PALMER, M.D., *Instructor in Medicine.*
GEORGE P. REYNOLDS, M.D., *Instructor in Medicine.*
WYMAN RICHARDSON, M.D., *Instructor in Medicine.*
MAX RITVO, M.D., *Instructor in Roentgenology.*
HOWARD F. ROOT, M.D., *Instructor in Medicine.*
RICHARD SCHATZKI, M.D., *Instructor in Roentgenology.*
RICHARD P. STETSON, M.D., *Instructor in Medicine.*
MAURICE B. STRAUSS, M.D., *Instructor in Medicine and Assistant in Tropical Medicine.*
JOHN H. TALBOTT, M.D., *Instructor in Medicine.*
JAMES H. TOWNSEND, M.D., *Instructor in Medicine.*
EDWARD C. VOGT, M.D., *Instructor in Roentgenology.*
MAURICE I. ABRAMS, M.D., *Assistant in Medicine.*
MARK D. ALTSCHULE, M.D., *Assistant in Medicine.*
THEODORE L. BADGER, M.D., *Assistant in Medicine.*
MYLES P. BAKER, M.D., *Assistant in Medicine.*
BENJAMIN M. BANKS, M.D., *Assistant in Medicine.*
WALTER O. BLANCHARD, M.D., *Assistant in Medicine.*
EDWARD F. BLAND, M.D., *Assistant in Medicine.*
ALLEN G. BRAILEY, M.D., *Assistant in Medicine.*
MORTON G. BROWN, M.D., *Assistant in Medicine.*
EDWARD BUDNITZ, M.D., *Assistant in Medicine.*
J. ALFRED CALHOUN, JR., M.D., *Assistant in Medicine.*
EARLE M. CHAPMAN, M.D., *Assistant in Medicine.*
MILTON H. CLIFFORD, M.D., *Assistant in Medicine.*
NEIL L. CRONE, M.D., *Assistant in Medicine.*
DAVID DAVIS, M.D., *Assistant in Medicine.*
SVEN M. GUNDERSEN, M.D., *Assistant in Medicine.*
THOMAS H. HAM, M.D., *Assistant in Medicine.*
HUGH F. HARE, M.D., *Assistant in Roentgenology.*
SAUL HERTZ, M.D., *Assistant in Medicine and Henry P. Walcott Fellow in Clinical Medicine.*
DAVID HURWITZ, M.D., *Assistant in Medicine.*
ALFRED KRANES, M.D., *Assistant in Medicine.*
JACOB LERMAN, M.D., *Assistant in Medicine.*
ALFRED O. LUDWIG, M.D., *Assistant in Medicine.*
WILLIAM M. MAC KAY, M.D.C.M., *Assistant in Medicine.*
ALEXANDER S. MACMILLAN, M.D., *Assistant in Roentgenology.*
ALEXANDER MARBLE, M.D., *Assistant in Medicine.*

- BENEDICT F. MASSELL, M.D., *Assistant in Medicine.*
 JOHN P. MONKS, M.D., *Assistant in Medicine.*
 WILLIAM N. MYHRE, M.D., *Assistant in Roentgenology.*
 JOSEPH E. F. RISEMAN, M.D., *Assistant in Medicine.*
 SAMUEL A. ROBINS, M.D., *Assistant in Roentgenology.*
 MAURICE A. SCHNITKER, M.D., *Assistant in Medicine.*
 CHARLES L. SHORT, M.D., *Assistant in Medicine and in Pharmacology.*
 WESLEY W. SPINK, M.D., *Assistant in Medicine.*
 JOSEPH C. TURNER, M.D., *Assistant in Medicine.*
 JOHN M. WISE, M.D., *Assistant in Medicine.*
 LOUIS ZETZEL, M.D., *Assistant in Medicine.*
 SMITH O. DEXTER, JR., M.D., *Teaching Fellow in Medicine.*
 JOHN W. BROWN, M.D., *Research Fellow in Medicine.*
 RICHARD DRESSER, M.D., *Research Fellow in Roentgenology.*
 GEOFFREY EDSALL, M.D., *Research Fellow in Medicine.*
 JOHN G. GIBSON, 2D, M.D., *Research Fellow in Medicine.*
 DOROTHY R. GILLIGAN, S.M., *Research Fellow in Medicine.*
 JAMES G. M. HAMILTON, M.B., Ch.B., *Research Fellow in Medicine and Fellow of the Commonwealth Fund.*
 ROBERT W. HEINLE, M.D., *Research Fellow in Medicine.*
 J. ALLEN KENNEDY, M.D., *Research Fellow in Medicine.*
 ROGER W. ROBINSON, M.D., *Research Fellow in Medicine.*
 MARIAN W. ROPES, M.D., *Research Fellow in Medicine.*
 JACK SPENCER, M.D., *Research Fellow in Roentgenology.*
 FRANCIS H. L. TAYLOR, Ph.D., *Research Fellow in Medicine.*
 STUART TOWNSEND, M.D., *Research Fellow in Medicine.*
 ROBERT W. WILKINS, M.D., *Research Fellow in Medicine.*

REQUIRED COURSES

The instruction given by the Department of Medicine consists in lectures, recitations, amphitheatre clinics, practical work in the out-patient departments and wards of the hospitals, and a course in clinical pathology which is given at the Harvard Medical School in the laboratory of the Department. The time given to the Department of Medicine in the medical curriculum comes in the second half of the second year and throughout the third and fourth years.

Second Year. — During the second half of the second year, instruction in the methods of history taking, physical examination, and laboratory technique is given. Also there are a number of lectures and demonstrations introductory to internal medicine.

Third Year. — Throughout the third year the subjects of internal medicine are covered in exercises for the whole class by clinics or lectures which are given at the various hospitals or at the Harvard Medical School. For their practical

work the students throughout this year are divided into small groups and work in the wards or out-patient departments of the four larger hospitals connected with the Medical School on problems of internal medicine. The individual student spends his entire time in one hospital, and in a small group, under the direct supervision of instructors especially assigned for this work.

Fourth Year. — In this year the students serve as clinical clerks in the wards of a general hospital for two or three months, part of which time is devoted to acting as assistants to the clinic in the out-patient departments. Each student is expected to work up some problem to present for discussion during these months. In this year the students who elect three months of medicine will have special instruction in the management of the problems of tuberculosis.

VOLUNTARY AND ELECTIVE COURSES

Numerous opportunities, in the form of voluntary courses, are offered throughout the academic year to students of the second, third, and fourth year classes. These courses vary in number and in the subjects covered from year to year.

In addition to the required courses for fourth year students the department offers several opportunities for specially qualified students to take advanced courses and carry on research problems in internal medicine.

FACILITIES FOR INSTRUCTION

The instruction is given at the Harvard Medical School, the Peter Bent Brigham Hospital, the Massachusetts General Hospital, the Boston City Hospital, the Beth Israel Hospital and several other hospitals devoted to special purposes. In these hospitals abundant and varied clinical material is available for the conduct of the numerous exercises.

SECOND YEAR

HOURS

Lectures and demonstrations on physical diagnosis and certain aspects of clinical medicine. Dr. JACKSON and Associates.	61
Exercises in sections, physical diagnosis and history taking. Dr. JACKSON and Assistants. B.C.H., M.G.H., and H.G.S. <i>Each student has twenty-four exercises.</i>	60
Clinical Pathological exercises. Dr. MONROE and Assistants. H.M.S. <i>Three times a week.</i>	96

THIRD YEAR

Lectures, recitations, and clinics on selected topics in internal medicine. Drs. CHRISTIAN, MINOT, MEANS, BLUMGART, AUB, and EMERY. <i>Throughout the year.</i>	64
Exercises in sections in the wards and out-patient departments at the M.G.H., B.C.H., P.B.B.H., and B.I.H. <i>Each section has thirty-two exercises of two and a half hours each and twenty-one exercises of three hours each.</i>	143

FOURTH YEAR

Clinical clerkship at M.G.H. (Medicine C1, Dr. MEANS and Associates), B.C.H. (Medicine C2, Dr. MINOT and Associates), P.B.B.H. (Medicine C3, Dr. CHRISTIAN and Associates), or B.I.H. (Medicine C4, Dr. BLUMGART and Associates, *from August to January inclusive*). 288 or 432

ELECTIVE COURSES IN MEDICINE

FOURTH YEAR

5. Advanced studies in Medicine. Dr. MEANS. M.G.H.
6. Advanced studies in Medicine. Drs. MINOT, CASTLE, JACKSON, KEEFER, WEISS, OHLER, and Associates. B.C.H.
7. Advanced studies in Medicine. Dr. CHRISTIAN. P.B.B.H.
8. Advanced studies in Medicine. Dr. BLUMGART. B.I.H.
9. Roentgenology. Drs. HOLMES (M.G.H.), BUTLER, (B.C.H.), and SOSMAN (P.B.B.H.).
10. Advanced studies in Medicine. Dr. JOSLIN and Associates. N.E.D.H.
11. Advanced Medicine. Neoplastic Disease. Dr. AUB and Associates. H.M.H.
12. Medical and Neurological Sociology. Drs. MINOT, PUTNAM, REYNOLDS, and Assistants in conjunction with the Department of Neurology and the Social Service Department. B.C.H.

VOLUNTARY COURSES IN MEDICINE

30. Clinical Medicine. Opportunities will be given to qualified students for intensive clinical investigative studies. Individual arrangements should be made by personal application to Dr. MINOT or Dr. WEISS.
31. Diagnostic and Therapeutic Clinics. Dr. CHRISTIAN. Thursdays, 3.30 P.M., throughout the year, P.B.B.H.
- 32a. Psychogenic Symptoms in Medical Practice. Drs. COBB, C. M. JONES, and Associates. Tuesdays and Thursdays, 2 P.M., October 6 to 29, M.G.H. (See Neurology 30a.)
- 32b. The Use of a Medical Library. Drs. FITZ and MINOT. Thursdays, 4.30 P.M., November and December, Library, H.M.S.
- 32c. Diseases of the Digestive System. Dr. BANKS. Tuesdays and Thursdays, 2 P.M., October, B.I.H.
33. Diseases of the Heart. Drs. P. D. WHITE, SPRAGUE, and BLAND. Tuesdays, 2 P.M. and Thursdays, 2.30 P.M., November, M.G.H.
- 34a. Diseases of the Lungs. Drs. BADGER and MALLORY. Thursdays, 2 to 4 P.M., November and December, B.C.H.

- 34*b*. Diseases of the Thyroid. Drs. GARGILL and FINE. Tuesdays, 3.30 to 5 P.M., December and January, B.I.H.
- 34*c*. Metabolic Diseases. Dr. AUB and Associates. Tuesdays 2 to 4 and Thursdays 2.30 to 4.30, January, H.M.H.
35. Clinical Electrocardiography. Dr. LEVINE. Thursdays, 4.30 to 5.30 P.M., November and December, P.B.B.H.
- 36*b*. Hypertensive Disease and Nephritis. Dr. DEROW. Tuesdays, 2 P.M. and Thursdays, 2.30 P.M., January, B.I.H.
- 37*a*. Problems of Private Practice. Dr. REYNOLDS. Thursdays, 2 to 4 P.M., February and March, B.C.H.
- 37*b*. Diseases of the Thyroid and other Endocrines. Drs. MEANS, ALBRIGHT, and HERTZ. Tuesdays 2 to 4 P.M., and Thursdays, 2.30 to 4.30 P.M., February, M.G.H.
- 37*c*. Diseases of the Cardiovascular System. Drs. BLUMGART, DAVIS, RISEMAN, and Associates. Thursdays, 2.30 to 4.30 P.M., February and March, B.I.H.
38. Correlation of Symptoms and Physical Signs in Practical Diagnosis and Treatment. Drs. OHLER, PALFREY, and HURWITZ. Tuesdays, 2 to 4 P.M., March and April, H.M.S. and B.C.H.
- 39*b*. Diabetes. Dr. MARBLE. Tuesdays, 2 to 4 P.M., and Thursdays, 2.30 to 4.30 P.M., March, N.E.D.H.
40. Applications of Physiological Principles. Dr. BLUMGART and Associates. Time and titles of clinics to be announced.
41. Diabetes. Dr. JOSLIN. Tuesdays, 8.30 to 10 A.M., October through May, N.E.D.H.

DERMATOLOGY AND SYPHILOLOGY

- C. GUY LANE, M.D., *Lecturer on Dermatology and Syphilology.*
- ARTHUR M. GREENWOOD, M.D., *Instructor in Dermatology and Syphilology.*
- JACOB H. SWARTZ, M.D., *Instructor in Dermatology and Syphilology.*
- JOHN ADAMS, JR., M.D., *Assistant in Dermatology and Syphilology.*
- AUSTIN W. CHEEVER, M.D., *Assistant in Dermatology and Syphilology.*
- G. MARSHALL CRAWFORD, M.D., *Assistant in Dermatology and Syphilology.*

REQUIRED COURSES

Third Year. — A series of five lectures is given on five succeeding Tuesdays in the first half-year. These lectures are elementary in character and are intended to give a bare outline only. The clinical section work is given at the Massachusetts General Hospital and the Beth Israel Hospital throughout the year, each section receiving instruction in the clinic from 10 to 1 daily. In the section work

it is usually possible to present to the students most of the common important diseases of the skin and many of the manifestations of syphilis, which the students can observe and examine most minutely.

	THIRD YEAR	HOURS
Lectures. Dr. LANE. H.M.S. <i>Five lectures, first half-year.</i>		5
Section work. Clinical Dermatology and Syphilology. Drs. LANE, GREENWOOD, SWARTZ, CHEEVER, ADAMS, and CRAWFORD. M.G.H. and B.I.H. <i>Each student attends ten or eleven exercises of three hours each.</i>		32

FOURTH YEAR ELECTIVE COURSES

1. Clinical Dermatology. Dr. LANE and Assistants. M.G.H. Half-course, forenoons, October, December, February, and April.
2. Advanced Dermatology. Dr. LANE and Assistants. M.G.H. Clinical clerkship. Whole course, all day, October, December, February, and April.

DISEASES OF THE NERVOUS SYSTEM

This department is composed of three divisions: —

1. PSYCHIATRY, under Dr. CAMPBELL, at the Boston Psychopathic Hospital.
2. NEUROLOGY, under Dr. AYER, at the Massachusetts General Hospital, and Dr. PUTNAM, at the Boston City Hospital. (Dr. CROTHERS, at the Children's Hospital, in association with the Department of Pediatrics, will give instruction in nervous diseases of children.)
3. NEUROPATHOLOGY, under Dr. COBB, at the Harvard Medical School.

JAMES B. AYER, M.D., *James Jackson Putnam Professor of Neurology and Chairman of the Department.*

C. MACFIE CAMPBELL, M.D., *Professor of Psychiatry.*

STANLEY COBB, M.D., *Bullard Professor of Neuropathology.*

TRACY J. PUTNAM, M.D., *Professor of Neurology.*

ABRAHAM MYERSON, M.D., *Clinical Professor of Psychiatry.*

HARRY C. SOLOMON, M.D., *Associate Professor of Psychiatry.*

JACOB E. FINESINGER, M.D., *Assistant Professor of Psychiatry.*

WILLIAM G. LENNOX, M.D., S.D., *Assistant Professor of Neurology.*

F. LYMAN WELLS, Ph.D., *Assistant Professor of Psychology.*

H. HOUSTON MERRITT, M.D., *Associate in Neurology.*

MERRILL MOORE, M.D., *Associate in Psychiatry.*

HENRY R. VIETS, M.D., *Associate in Neurology.*

LEO ALEXANDER, M.D., *Instructor in Neurology.*

GEORGE CLYMER, M.D., *Instructor in Neurology.*

M. RALPH KAUFMAN, M.D.C.M., *Instructor in Psychiatry.*

CHARLES S. KUBIK, M.D., *Instructor in Neurology and in Neuropathology.*

- CHARLES A. McDONALD, M.D., *Instructor in Neurology.*
DONALD J. MACPHERSON, M.D., *Instructor in Neuropathology.*
MARTIN W. PECK, M.D., *Instructor in Psychiatry.*
OSCAR J. RAEDER, M.D., *Instructor in Psychiatry.*
HANNS SACHS, Dr. Jur., *Instructor in Psychology.*
JACKSON M. THOMAS, M.D., *Instructor in Psychiatry.*
KENNETH J. TILLOTSON, M.D., S.M., *Instructor in Psychiatry.*
JOHN C. WHITEHORN, M.D., *Instructor in Psychiatry.*
NIELS L. ANTHONISEN, M.D., *Assistant in Psychiatry.*
WILFRED BLOOMBERG, M.D., *Assistant in Neurology.*
G. COLKET CANER, M.D., *Assistant in Neurology.*
MANDEL E. COHEN, M.D., *Assistant in Neuropathology.*
EDWIN M. COLE, M.D., *Assistant in Neurology.*
JOHN B. DYNES, M.D., *Assistant in Psychiatry.*
CHARLES G. FREED, M.D., *Assistant in Neurology.*
PAUL HAUN, M.D., *Assistant in Psychiatry.*
WILLIAM L. HOLT, Jr., M.D., *Assistant in Neurology.*
EDGERTON MCC. HOWARD, M.D., *Assistant in Neurology and in Psychiatry.*
HARRY L. KOZOL, M.D., *Assistant in Psychiatry.*
LAWRENCE R. MORRISON, M.D., *Assistant in Neuropathology.*
ROBERT S. SCHWAB, M.D., *Assistant in Neurology.*
PHILIP SOLOMON, M.D., *Assistant in Neuropathology.*
ALEXANDRA ADLER, M.D., *Research Fellow in Neurology.*
IRMA BACKE, M.D., *Research Fellow in Psychiatry.*
CLEMENS E. BENDA, M.D., *Research Fellow in Neuropathology.*
MARGARET W. COOLIDGE, A.B., *Research Fellow in Neurology.*
FRANK C. D'ELSEAUX, M.D., *Research Fellow in Psychiatry.*
FELIX DEUTSCH, M.D., *Research Fellow in Psychiatry.*
HENRY S. FORBES, M.D., *Research Fellow in Neuropathology.*
FREDERIC A. GIBBS, M.D., *Research Fellow in Neurology.*
ROBERT P. GOODKIND, M.D., *Research Fellow in Psychiatry and in Pediatrics.*
MILDRED G. GRAY, A.M., *Research Fellow in Neurology.*
PAUL F. A. HOEFER, M.D., *Research Fellow in Neurology.*
PAUL M. HOWARD, M.D., *Research Fellow in Psychiatry.*
FRITZ KANT, M.D., *Research Fellow in Psychiatry.*
ERICH LINDEMANN, M.D., *Research Fellow in Neuropathology.*
NEIL T. McDERMOTT, M.D., *Research Fellow in Psychiatry.*
ELEANOR PAVENSTEDT, M.D., *Research Fellow in Psychiatry.*
TSUNG-HWA SUH, M.D., *Research Fellow in Neurology.*
MARIANNA TAYLOR, M.D., *Research Fellow in Psychiatry.*
THEODORE J. C. VON STORCH, M.D., *Research Fellow in Neurology.*
BENJAMIN V. WHITE, Jr., M.D., *Research Fellow in Psychiatry.*
PAUL I. YAKOVLEV, M.D., *Research Fellow in Neurology.*
ROBERT A. YOUNG, Ed.D., *Research Fellow in Psychology.*

NEUROLOGY

REQUIRED COURSES

Second Year. — Clinical lectures are given at the Massachusetts General and Boston City Hospitals to the entire class. The object of the course is to give the student a general knowledge of the principles of diagnosis and treatment of diseases of the nervous system as a preparation for later work.

Third Year. — Clinical lectures are given during January of the third year, at the Massachusetts General Hospital. The members of the class are also required to work in the neurological service at the M.G.H. or B.C.H. in sections during the year. For this work the more didactic teaching of the second year serves as a necessary preparation. The work is practical in character and serves to bring the student into immediate contact with patients.

SECOND YEAR	HOURS
Clinical lectures. Dr. AYER, M.G.H. and Dr. PUTNAM, B.C.H.	15

THIRD YEAR	
Clinical lectures. Dr. AYER, M.G.H. <i>Saturdays in January.</i>	8
Section teaching. Each student attends ten or eleven two-and-a-half-hour exercises in Neurology. M.G.H. and B.C.H.	27

FOURTH YEAR ELECTIVE COURSES

1. Neurology. Whole course (clerkship), all day, M.G.H. or B.C.H.
2. Advanced Neurology. Special opportunities are offered to those who intend to enter this field of medicine, at the M.G.H. with Dr. AYER or at the B.C.H. with Dr. PUTNAM.
3. Medical and Neurological Sociology. Drs. MINOT, PUTNAM, REYNOLDS, MOORE, and Assistants in conjunction with the Department of Medicine and the Social Service Department. B.C.H. (See Medicine 12.)

VOLUNTARY COURSES

- 30a. Psychogenic Symptoms in Medical Practice. Drs. COBB, C. M. JONES, and Associates. Tuesdays and Thursdays, 2.00 P.M., October 6 to 29, M.G.H. (See Medicine 32a.)

NEUROPATHOLOGY

REQUIRED COURSE

NEUROPATHOLOGY A. *Second Year.* — The course consists of lectures, laboratory work, and demonstrations, amounting to fifty-four hours. The exercises are appropriately integrated with the clinical lectures in Neurology. The lectures introduce conceptions of value for the third year courses in neurology and psychiatry and for the neurological parts of courses in internal medicine and in surgery. The histopathological part of the laboratory work deals with the inflammatory reactions, the classical degenerations, etc. Gross pathological specimens are also shown and physiological demonstrations are given to illustrate living pathological processes.

SECOND YEAR

HOURS

Lectures and laboratory work. The Staff. *Three times a week, for six weeks.* 54

FOURTH YEAR ELECTIVE COURSE

20. Research. Opportunities for research are available at the Laboratories of the M.G.H., B.C.H., and H.M.S. Time to be arranged.

VOLUNTARY COURSE

- 30*b*. Pathology of the Nervous System. Drs. MERRITT and KUBIK. Tuesdays and Thursdays, 2 to 5 P.M., October, H.M.S.
- 30*c*. Advanced Neuropathology. Dr. LEO ALEXANDER. Tuesdays and Thursdays, 2 P.M., February and March, B.C.H.

PSYCHIATRY

REQUIRED COURSES

First Year. — Medical Psychology. Physiology deals with the reactions of the various organs and systems; psychology deals with the reactions of the individual to the environment. In this course on medical psychology the student will have an opportunity of studying briefly the emotional reactions, their modification by experience, the rôle played in these reactions by the various systems; the ability to receive, elaborate, store, and reactivate impressions; variations in constitutional endowment; special lines of weakness; the importance of personal factors in medicine in general, and especially in relation to nervous and mental disorders.

Third Year. — During the second half-year clinical lectures will be given once a week at the Psychopathic Hospital. An endeavor will be made to present examples of the most important varieties of mental disorder, with special emphasis on the mild and incipient cases which are frequently treated by the general

practitioner. More attention will be given to the dynamic analysis and the practical problems of the individual case than to questions of formal classification. Some examples of nervous and mental disorders of childhood will be presented.

For bed-side work the class is divided into small sections, and each student will be given opportunity for personally studying individual cases.

FIRST YEAR	HOURS
Lectures on Medical Psychology. Drs. CAMPBELL and WELLS. B.P.H. <i>Once a week, for ten weeks.</i>	10

THIRD YEAR	
Clinical lectures. Drs. CAMPBELL and SOLOMON. B.P.H. <i>Once a week, second half-year.</i>	16
Section teaching. Each student attends ten or eleven three-hour exercises.	32

FOURTH YEAR ELECTIVE COURSE

4. Psychiatry. Dr. CAMPBELL and Assistants. B.P.H. Whole course, all day, or half-course, forenoons, offered throughout the year.
5. Psychiatry. Dr. COBB and Staff. M.G.H. Clinical clerkships on Psychiatric ward and O.P.D. Limited to one man each month. Whole course, all day.

VOLUNTARY COURSES

31. Principles of Psychotherapy. Dr. M. RALPH KAUFMAN. Tuesdays, 2 P.M., and Thursdays, 2.30 P.M., November, B.P.H.
32. Psychiatry. Staff of the Department of Psychiatry, Tuesdays, 2 to 3 P.M., and Thursdays, 2.30 to 3.30 P.M., December and January, B.P.H.
33. Psychoanalysis. Dr. SACHS. Tuesdays and Thursdays, 4.30 P.M., November, Neuropsychiatric Laboratory, M.G.H.
34. Psychopathology. Dr. WHITEHORN. Tuesdays and Thursdays, 4.30 P.M., April, Neuropsychiatric Laboratory, M.G.H.
35. Clinical Psychometrics. Dr. WELLS. Tuesdays, 2 to 4 P.M., March, B.P.H.

OPHTHALMOLOGY

J. HERBERT WAITE, M.D., S.D., *Clinical Professor of Ophthalmology.*
 PAUL A. CHANDLER, M.D., *Instructor in Ophthalmology.*
 EDWIN B. DUNPHY, M.D., *Instructor in Ophthalmology.*
 EDWIN B. GOODALL, M.D., *Instructor in Ophthalmology.*
 HUGO B. C. RIEMER, M.D., *Instructor in Ophthalmology.*
 BENJAMIN SACHS, M.D., *Instructor in Ophthalmology.*
 THEODORE L. TERRY, M.D., *Instructor in Ophthalmology.*

WILLIAM P. BEETHAM, M.D., *Assistant in Ophthalmology.*

VIRGIL G. CASTEN, M.D., *Assistant in Ophthalmology.*

DAVID G. COGAN, M.D., *Assistant in Ophthalmology and in Ophthalmic Research.*

HERMAN P. GROSSMAN, M.D., *Assistant in Ophthalmology.*

TRYGVE GUNDERSEN, M.D., *Assistant in Ophthalmology and Instructor in Ophthalmic Research.*

MERRILL J. KING, M.D., *Assistant in Ophthalmology and Instructor in Ophthalmic Research.*

BRENDAN D. LEAHEY, M.D., *Assistant in Ophthalmology.*

HARRY K. MESSENGER, Ph.D., M.D., *Assistant in Ophthalmology and in Ophthalmic Research.*

REQUIRED COURSES

Third Year. — Instruction in Ophthalmology consists of: —

1. Five exercises at the Medical School devoted to the demonstration of lantern slides and illustrations of the subject matter to be considered.

2. Ten or eleven clinical exercises of two and one-half hours each in sections at the Massachusetts Eye and Ear Infirmary, devoted to methods of examination, diagnosis, and treatment. Twelve hours of the foregoing is devoted to the use of the ophthalmoscope.

THIRD YEAR

HOURS

Clinical exercises. Drs. WAITE, CHANDLER, DUNPHY, GOODALL, SACHS, TERRY, BEETHAM, CASTEN, COGAN, GROSSMAN, GUNDERSEN, KING, LEAHEY, and MESSENGER. M.E. and E.I. *In sections throughout the year.* 27

Demonstrations and quizzes. H.M.S. *Once a week, April and May.* 4

FOURTH YEAR ELECTIVE COURSES

1. Clinical Ophthalmology. Drs. WAITE and RIEMER. Whole course, mornings, occupying two months during the first half-year. Limited to four men a month. M.E. and E.I.

2. Clinical Ophthalmology. Drs. WAITE and RIEMER. Half-course, mornings, occupying one month. Comprises the first month of Ophthalmology 1. Limited to four men a month. M.E. and E.I.

Howe Laboratory of Ophthalmology

FREDERICK H. VERHOEFF, M.D., A.M., *Professor of Ophthalmic Research, Director.*
TRYGVE GUNDERSEN, M.D., *Instructor in Ophthalmic Research and Assistant in Ophthalmology.*

CLYDE E. KEELER, S.D., *Instructor in Ophthalmic Research.*

MERRILL J. KING, M.D., *Instructor in Ophthalmic Research and Assistant in Ophthalmology.*

DAVID G. COGAN, M.D., *Assistant in Ophthalmic Research and in Ophthalmology.*

ELEK J. LUDVIGH, 2d., Ph.D., *Assistant in Ophthalmic Research.*

EUGENE F. MCCARTHY, A.M., *Assistant in Ophthalmic Research.*

HARRY K. MESSENGER, Ph.D., M.D., *Assistant in Ophthalmic Research and in Ophthalmology.*

The Howe Laboratory of Ophthalmology was founded in 1927 by the late Dr. Lucien Howe. A sum of money equal to that given by Dr. Howe was donated by the Rockefeller Foundation. Laboratory space was provided by the Massachusetts Eye and Ear Infirmary. Dr. Howe was the first director of the laboratory, but the laboratory was not definitely organized until August 1, 1931.

The purpose of the laboratory is to advance ophthalmology, and its researches will not be restricted to any particular phase of this science. Advantage will be taken of the rich clinical material of the Infirmary. While the laboratory is purely an institution for research, the services of the various members of the staff are available for teaching in the Harvard Medical School and for assistance in the clinical work of the Infirmary.

PEDIATRICS

KENNETH D. BLACKFAN, M.D., *Thomas Morgan Rotch Professor of Pediatrics.*

JAMES L. GAMBLE, M.D., S.M., *Professor of Pediatrics.*

CHARLES F. MCKHANN, M.D., *Associate Professor of Pediatrics and Communicable Diseases.*

BRONSON CROTHERS, M.D., *Assistant Professor of Pediatrics.*

HAROLD L. HIGGINS, M.D., *Assistant Professor of Pediatrics.*

RICHARD M. SMITH, M.D., S.D., *Assistant Professor of Pediatrics and Child Hygiene.*

HAROLD C. STUART, M.D., *Assistant Professor of Pediatrics and Child Hygiene.*

ALLAN M. BUTLER, M.D., *Associate in Pediatrics.*

LOUIS K. DIAMOND, M.D., *Associate in Pediatrics.*

R. CANNON ELEY, M.D., *Associate in Pediatrics and Communicable Diseases.*

LEROY D. FOTHERGILL, M.D., *Associate in Pediatrics and in Bacteriology and Immunology.*

JAMES L. WILSON, M.D., *Associate in Pediatrics.*

MAYNARD LADD, M.D., *Associate in Pediatrics.*

CONRAD WESSELHOEFT, M.D., *Associate in Communicable Diseases.*

RANDOLPH K. BYERS, M.D., *Instructor in Pediatrics.*

BENJAMIN W. CAREY, Jr., M.D., *Instructor in Pediatrics and in Bacteriology.*

STEWART H. CLIFFORD, M.D., *Instructor in Pediatrics and Child Hygiene.*

PAUL W. EMERSON, M.D., *Instructor in Pediatrics.*

RICHARD S. EUSTIS, M.D., *Instructor in Pediatrics.*

HENRY E. GALLUP, M.D., *Instructor in Pediatrics.*

JOSEPH GARLAND, M.D., *Instructor in Pediatrics.*

ROBERT B. HIGHTOWER, M.D., *Instructor in Pediatrics and Child Hygiene.*

LEWIS W. HILL, M.D., *Instructor in Pediatrics.*

ELIOT HUBBARD, Jr., M.D., *Instructor in Pediatrics.*

ARTHUR B. LYON, M.D., *Instructor in Pediatrics.*
 EDWARD S. O'KEEFE, M.D., *Instructor in Pediatrics.*
 ELI C. ROMBERG, M.D., *Instructor in Pediatrics.*
 DAVID W. SHERWOOD, M.D., *Instructor in Pediatrics.*
 WARREN R. SISSON, M.D., *Instructor in Pediatrics.*
 ABRAHAM S. SMALL, M.D., *Instructor in Pediatrics and Child Hygiene.*
 EDWARD C. SMITH, M.D., *Instructor in Communicable Diseases.*
 PHILIP H. SYLVESTER, M.D., *Instructor in Pediatrics.*
 RICHARD C. TEFFT, Jr., M.D., *Instructor in Pediatrics.*
 EDWIN T. WYMAN, M.D., *Instructor in Pediatrics.*
 FREDERICK W. BARNES, Jr., M.D., *Assistant in Pediatrics.*
 LEO B. BURGIN, M.D., *Assistant in Pediatrics.*
 RALPH W. DAFFINEE, M.D., *Assistant in Pediatrics.*
 STANTON GARFIELD, M.D., *Assistant in Pediatrics.*
 WILFRED L. MCKENZIE, M.B., *Assistant in Pediatrics.*
 HENRY N. PRATT, M.D., *Assistant in Pediatrics.*
 CLEMENT A. SMITH, M.D., *Assistant in Pediatrics.*
 LENDON SNEDEKER, M.D., M.P.H., *Assistant in Pediatrics.*
 HARVEY SPENCER, M.D., *Assistant in Pediatrics.*
 WILLIAM J. TURTLE, M.D., *Assistant in Pediatrics.*
 CHARLES F. WALCOTT, M.D., *Assistant in Communicable Diseases.*
 WARREN E. WHEELER, M.D., *Assistant in Pediatrics.*
 ARDA A. GREEN, M.D., *Research Associate in Pediatrics.*
 ELIZABETH E. LORD, Ph.D., *Research Associate in Pediatrics.*
 ALFRED T. SHOHL, M.D., *Research Associate in Pediatrics.*
 CAROLINE A. CHANDLER, M.D., *Research Fellow in Pediatrics.*
 JOHN A. V. DAVIES, M.D., *Research Fellow in Pediatrics.*
 ROBERT P. GOODKIND, M.D., *Research Fellow in Pediatrics and in Psychiatry.*
 THEODORE H. INGALLS, M.D., *Research Fellow in Pediatrics.*

REQUIRED COURSES

Second Year. — Lectures are given during the second year to familiarize the students with the study of children's diseases before they come into contact with patients. In this series are discussed the physiology of nutrition and the principles of infant feeding, the anatomical and physiological differences between children and adults, a consideration of the normal growth and development of children and the physiology and pathology of extracellular body fluids.

Third Year. — 1. Eight whole class exercises are given during the first half-year, in which the more important aspects of the diseases of childhood are presented. Three whole class lectures, on special subjects, are assigned to pediatrics by the Department of Medicine. Five whole class lectures are conducted in collaboration with the Department of Preventive Medicine. Each section, during its assignment to the Children's Hospital for thirty-two days, receives correlated instruction in pediatrics, surgery, orthopaedic surgery, etc.

2. Section teaching: The students are assigned to the out-patient department for eleven periods (three hours each) where under the supervision of instructors they receive actual experience in history taking, physical examination and the care of infants and children. Conference hours are held in which certain aspects of pediatrics are illustrated by didactic talks, by demonstration and by quizzes on assigned reading. Five clinics are held at which the students present cases for discussion before the entire section. Five afternoon exercises during each period are devoted to the study of communicable diseases. Three of these hours are held in the Isolation Division of the Children's Hospital and two at the Haynes Memorial Hospital for Contagious Diseases. Five conferences are given for instruction in the examination and care of the normal infant and child.

Fourth Year. — The fourth year work consists of instruction at the Children's Hospital and the Infants' Hospital, or at the Children's Department of the Massachusetts General Hospital. The students act as clinical clerks.

An opportunity is offered each student to work one afternoon a week in a child health conference in order to acquire experience in preventive pediatrics. Instruction in Communicable Diseases is given at the Children's Hospital and at the Haynes Memorial Hospital. Two conferences in Mental Hygiene are held. Instruction in the diseases of the newly born is given at the Boston Lying-in Hospital two afternoons a week to the students during their obstetrical service.

	SECOND YEAR	HOURS
Clinical Lectures. C.H. <i>Second half-year.</i>		4

	THIRD YEAR	
Clinical Lectures. C.H. <i>First half-year.</i>		8
Section Teaching. C.H. and I.H. <i>Throughout the year.</i>		63

	FOURTH YEAR	
Clinical clerkship. C.H. and I.H., or M.G.H.		144
Clinico-Pathological Conference. Drs. BLACKFAN and WOLBACH. C.H. <i>Thursdays, 12-1.</i> For third and fourth year students.		

FOURTH YEAR ELECTIVE COURSES

3. Pediatrics. Whole course, all day, C.H. and I.H.
4. Advanced Pediatrics. Whole course, all day, M.G.H.
5. Advanced Pediatrics. Half-course, mornings, C.H.

ROENTGENOLOGY

Instruction will be given (a) to students during their section work in general medicine and surgery at the various hospitals; (b) to the class as a whole in the combined exercises of Medicine and Surgery when such instruction is indicated by the topic under discussion. For courses offered in the fourth year, see Medicine 9.

Obstetrics

- FREDERICK C. IRVING, M.D., *William Lambert Richardson Professor of Obstetrics.*
 THOMAS R. GOETHALS, M.D., *Associate in Obstetrics.*
 FOSTER S. KELLOGG, M.D., *Associate in Obstetrics.*
 DELOS J. BRISTOL, JR., M.D., *Instructor in Obstetrics.*
 ROBERT M. GREEN, M.D., *Instructor in Obstetrics and in Gynaecology and Associate Professor of Applied Anatomy.*
 JUDSON A. SMITH, M.D., *Instructor in Obstetrics.*
 HAROLD M. TEEL, M.D., *Instructor in Obstetrics.*
 WILLIAM B. YOUNG, M.D., *Instructor in Obstetrics.*
 DANIEL ABRAMSON, M.D., *Assistant in Obstetrics.*
 SAUL BERMAN, M.D., *Assistant in Obstetrics.*
 BENJAMIN F. CORNWALL, M.D., *Assistant in Obstetrics.*
 JOHN A. COYNE, M.D., *Assistant in Obstetrics.*
 MARION F. EADES, M.D., *Assistant in Obstetrics.*
 KENNETH C. FARNSWORTH, M.D., *Assistant in Obstetrics, in Gynaecology, and in Anatomy.*
 PAUL GUSTAFSON, M.D., *Assistant in Obstetrics.*
 MEINOLPH V. KAPPIUS, M.D., *Assistant in Obstetrics.*
 DANIEL J. MCSWEENEY, M.D., *Assistant in Obstetrics.*
 G. ELLIOTT MAY, M.D., *Assistant in Obstetrics and in Gynaecology.*
 H. BRISTOL NELSON, M.D., *Assistant in Obstetrics.*
 JOHN L. NEWELL, M.D., *Assistant in Obstetrics.*
 BENJAMIN TENNEY, JR., M.D., *Assistant in Obstetrics.*
 W. T. SHERMAN THORNDIKE, M.D., *Assistant in Obstetrics.*
 WILLIAM A. GORMAN, M.D., *Austin Teaching Fellow in Obstetrics.*
 DONALD MACOMBER, M.D., *Research Fellow in Obstetrics.*
 HUGH H. NUCKOLS, M.D., *Research Fellow in Obstetrics.*
 DUNCAN E. REID, M.D., *Research Fellow in Obstetrics.*
 JOHN ROCK, M.D., *Research Fellow in Obstetrics and Assistant in Gynaecology.*
 K. JEFFERSON THOMSON, M.D., *Research Fellow in Obstetrics.*

REQUIRED COURSES

Third Year. — Instruction is given by lectures, conferences, and clinical teaching. Students are required to take charge, before graduation, of at least twelve cases of labor, under supervision and instruction, to care for their patients during convalescence, and to make full written reports of the cases.

Fourth Year. — The fourth year course will occupy the student's entire time for one month. It will be given at the Boston Lying-in Hospital and at the Medical School. During half of the course the student will lodge at the hospital, and devote his time chiefly to attendance on cases in the out-patient clinic. In

the course of his work he will be called on to assist at operations in the out-patient department, and will be expected, when his other duties permit, to make ward visits with the physician on duty in the house. In the other half of the course he will conduct the convalescence of the cases delivered by him during his resident service, and make daily ward visits at which clinical instruction will be given in the general management of normal and abnormal labor, in the study of the puerperal convalescence, and in the care of the young infant. Detailed written reports of the out-patient cases attended will be required. His clinical work will be done under the supervision of the department and of the hospital staff on duty, and he will receive careful instruction in the proper methods of delivery and the care of the convalescence. An opportunity will be given each student to study the care of pregnancy in the Pregnancy Clinic, where instruction in pelvimetry and in diagnosis of presentation and position by internal and external examination will be given. Case teaching on five afternoons during the week will be an important feature of the course. A written report on one of the complications of pregnancy will be required of each student. The student will also be given at the Medical School a course of demonstrations in operative obstetrics during the first week of each course, and each student will have an opportunity to perform the different operations on the manikin.

SECOND YEAR	HOURS
Lectures on Normal Obstetrics. Dr. GOETHALS. H.M.S. <i>Three times a week for four weeks.</i>	12

THIRD YEAR	
Lectures on Abnormal Obstetrics. Dr. IRVING and Assistants. H.M.S. <i>On Saturday mornings for twenty-four weeks.</i>	24
Practical instruction in Clinical Obstetrics. By members of the Department. <i>Throughout the year.</i>	104

FOURTH YEAR	
Practical instruction, in sections, in Clinical Obstetrics. <i>One month.</i>	144

VOLUNTARY COURSE

30. Sex Hygiene in the Practice of Medicine. Dr. MACOMBER. Tuesdays 3-30 to 5 P.M., November 3 to December 8, H.M.S.

Preventive Medicine and Hygiene

FREDERICK F. RUSSELL, M.D., S.D., *Professor of Preventive Medicine and Epidemiology.*
 W. LLOYD AYCOCK, M.D., *Assistant Professor of Preventive Medicine and Hygiene.*
 ELLIOTT S. A. ROBINSON, M.D., Ph.D., *Assistant Professor of Applied Immunology.*
 JOSEPH W. SCHERESCHEWSKY, M.D., *Associate in Preventive Medicine and Hygiene.*
 HOWARD B. ANDERVONT, S.D., *Instructor in Preventive Medicine and Hygiene.*
 ROY F. FEEMSTER, M.D., Dr. P.H., *Instructor in Applied Immunology.*

WILLIAM A. HINTON, M.D., *Instructor in Preventive Medicine and Hygiene and in Bacteriology and Immunology.*

EDWARD G. HUBER, M.D., Dr.P.H., *Instructor in Preventive Medicine and Hygiene.*

FLOYD C. TURNER, M.D., *Instructor in Preventive Medicine and Hygiene.*

LA VERNE A. BARNES, Ph.D., *Assistant in Preventive Medicine and Hygiene.*

LLOYD C. FOGG, Ph.D., *Research Fellow in Preventive Medicine and Hygiene.*

EGON LORENZ, Ph.D., *Research Fellow in Preventive Medicine and Hygiene.*

MURRAY J. SHEAR, Ph.D., *Research Fellow in Preventive Medicine and Hygiene.*

THOMAS N. WHITE, Jr., Ph.D., *Research Fellow in Preventive Medicine and Hygiene.*

REQUIRED COURSES

PREVENTIVE MEDICINE AND HYGIENE A. *Third Year.* — The course in Preventive Medicine and Hygiene consists of lectures and demonstrations, public health survey, and excursions to inspect certain public health activities. The lectures are followed by correlating clinical exercises. Each student is required to make a public health survey (including sanitation and the provisions for medical care) of a city or town and submit a report thereon, or an equivalent in the field of Preventive Medicine and Hygiene which has been approved by the Head of the Department. The report is due in the fourth year, not later than October first. The excursions include a visit to the State biological laboratory, a milk plant, a water purification system and a suburban public health department.

THIRD YEAR

HOURS

Lectures and demonstrations. Dr. RUSSELL and Staff. <i>Once a week, throughout the year.</i>	32
Public health Survey.	36
Clinical exercises. <i>Once a week, throughout the year.</i>	56

VOLUNTARY COURSE

30. Applied Immunology (Serums and Vaccines). Dr. ROBINSON. Mondays, Wednesdays and Fridays, 2 to 5 P.M., May. (See Bacteriology 33a.)

Surgery

Under this Division are included Surgery and the specialties relating chiefly to Surgery: — Genito-Urinary Surgery, Gynaecology, Orthopaedic Surgery, Otology and Laryngology.

SURGERY

(Including clinical surgery, operative surgery, surgical pathology, surgical technique, and surgical research.)

EDWARD D. CHURCHILL, M.D., *John Homans Professor of Surgery.*

ELLIOTT C. CUTLER, M.D., *Moseley Professor of Surgery.*

DAVID CHEEVER, M.D., *Associate Professor of Surgery.*

- JOHN HOMANS, M.D., *Clinical Professor of Surgery.*
WILLIAM E. LADD, M.D., *Clinical Professor of Surgery.*
RICHARD H. MILLER, M.D., *Clinical Professor of Surgery.*
WILLIAM C. QUINBY, M.D., *Clinical Professor of Genito-Urinary Surgery.*
IRVING J. WALKER, M.D., *Clinical Professor of Surgery.*
ARTHUR W. ALLEN, M.D., *Lecturer on Surgery.*
W. JASON MIXTER, M.D., *Lecturer on Neurosurgery.*
J. DELLINGER BARNEY, M.D., *Assistant Professor of Genito-Urinary Surgery.*
ROBERT C. COCHRANE, M.D., *Assistant Professor of Surgery.*
CHARLES C. LUND, M.D., *Assistant Professor of Surgery.*
CHARLES G. MIXTER, M.D., *Assistant Professor of Surgery.*
DONALD MUNRO, M.D., *Assistant Professor of Neurological Surgery.*
AUGUSTUS RILEY, M.D., *Assistant Professor of Genito-Urinary Surgery.*
JAMES C. WHITE, M.D., *Assistant Professor and Tutor in Surgery.*
JACOB FINE, M.D., *Associate in Surgery.*
OTTO J. HERMANN, M.D., *Associate in Surgery.*
THOMAS H. LANMAN, M.D., *Associate in Surgery.*
GEORGE A. LELAND, Jr., M.D., *Associate in Surgery.*
FRANCIS C. NEWTON, M.D., *Associate in Surgery.*
HARLAN F. NEWTON, M.D., *Associate in Surgery.*
STANLEY J. G. NOWAK, M.D., *Associate in Surgery.*
ROBERT ZOLLINGER, M.D., *Associate in Surgery.*
HENRY K. BEECHER, M.D., *Instructor in Anaesthesia.*
CHARLES D. BRANCH, M.D., *Instructor in Surgery.*
OLIVER COPE, M.D., *Instructor in Surgery.*
ERNEST M. DALAND, M.D., *Instructor in Surgery.*
ROBERT R. LINTON, M.D., *Instructor in Surgery.*
LELAND S. MCKITTRICK, M.D., *Instructor in Surgery.*
JOE V. MEIGS, M.D., *Instructor in Surgery.*
A. WILLIAM REGGIO, M.D., *Instructor in Surgery.*
RICHARD I. SMITH, M.D., *Instructor in Surgery.*
EDWARD L. YOUNG, Jr., M.D., *Instructor in Surgery.*
ROBERT H. ALDRICH, M.D., *Assistant in Surgery.*
GORDON D. ATKINSON, M.D., *Assistant in Genito-Urinary Surgery.*
FRANKLIN G. BALCH, Jr., M.D., *Assistant in Surgery.*
EDWARD B. BENEDICT, M.D., *Assistant in Surgery.*
FLETCHER H. COLBY, M.D., *Assistant in Genito-Urinary Surgery.*
ALLAN L. DAVIS, M.D., *Assistant in Surgery.*
HERBERT G. DUNPHY, M.D., *Assistant in Surgery.*
HENRY H. FAXON, M.D., *Assistant in Surgery.*
CARLYLE G. FLAKE, M.D., *Assistant in Surgery.*
TORR W. HARMER, M.D., *Assistant in Surgery and Instructor in Anatomy.*
J. HARTWELL HARRISON, M.D., *Assistant in Genito-Urinary Surgery.*
E. PARKER HAYDEN, M.D., *Assistant in Surgery.*

HENRY W. HUDSON, Jr., M.D., *Assistant in Surgery.*
CHARLES A. LAMB, M.D., *Assistant in Surgery.*
WALTER S. LEVENSON, M.D., *Assistant in Surgery.*
ROLF LIUM, M.D., *Assistant in Surgery.*
CHAMP LYONS, M.D., *Assistant in Surgery and in Bacteriology.*
DONALD W. MACCOLLUM, M.D., *Assistant in Surgery.*
STEPHEN J. MADDOCK, M.D., *Assistant in Surgery.*
PATRICK J. MAHONEY, M.D., *Assistant in Surgery.*
E. ROSS MINTZ, M.D., *Assistant in Genito-Urinary Surgery.*
E. EVERETT O'NEIL, M.D., *Assistant in Surgery.*
PRODROMOS N. PAPAS, M.D., *Assistant in Genito-Urinary Surgery.*
C. LANGDON PARSONS, M.D., *Assistant in Surgery.*
THOMAS H. PETERSON, M.D., *Assistant in Surgery.*
LYMAN G. RICHARDS, M.D., *Assistant in Surgery.*
HORATIO ROGERS, M.D., *Assistant in Surgery.*
JOHN B. SEARS, M.D., *Assistant in Surgery.*
REGINALD H. SMITHWICK, M.D., *Assistant in Surgery.*
JOHN D. STEWART, M.D., *Assistant in Surgery.*
GRANTLEY W. TAYLOR, M.D., *Assistant in Surgery.*
AUGUSTUS THORNDIKE, Jr., M.D., *Assistant in Surgery.*
RICHARD H. WALLACE, M.D., *Assistant in Surgery.*
WALTER R. WEGNER, M.D., *Assistant in Neurological Surgery.*
CLAUDE E. WELCH, M.D., *Assistant in Surgery.*
WILLIAM A. WHITE, Jr., M.D., *Assistant in Surgery.*
SIDNEY C. WIGGIN, M.D., *Assistant in Anaesthesia.*
GEORGE F. WILKINS, M.D., *Assistant in Surgery.*
JOHN L. KEELEY, M.D., *Arthur Tracy Cabot Fellow in Surgery.*
MARION R. SMITH, M.D., *Austin Teaching Fellow in Surgery.*

REQUIRED COURSES

Instruction will be given by amphitheatre clinics, lectures, and conferences, together with section teaching in the wards and out-patient departments of the hospitals and in the surgical research laboratories. Elective and voluntary courses will be given in the laboratories of the Harvard Medical School and in the wards and operating rooms of the hospitals.

Second Year. — The course, which is designed to prepare the student for his hospital contact with patients, will begin in February of the second year. Instruction will be given by clinical lectures and section work in the various hospitals and laboratories. The course will cover the general principles of surgical treatment: surgical technique, the use of apparatus and instruments, and an introduction to clinical surgery, beginning with inflammation, trauma, etc.

Third Year. — The course is conducted largely in the out-patient departments of the hospitals affiliated with the School. The students are divided into three

main groups, each group in rotation being apportioned to one of the three major hospitals affiliated with the School for instruction in surgery over a sixty-four day period. During this period they will have their general surgery and urology at the hospital to which they are assigned, and will also receive instruction in gynaecology at the Free Hospital for Women and in laryngology at the Massachusetts Eye and Ear Infirmary. Instruction in the surgery of children is given during the pediatric section work at the Children's Hospital.

Fourth Year. — A service of not less than three months as clinical clerk in the surgical wards of the M.G.H., B.C.H., P.B.B.H., or B.I.H., is required of each student, except those who take at least three months in medicine, in which case two months of surgery are required. For students electing three months of surgery, children's surgery (Surgery C5) may count for one of the required months. This course is limited to two qualified students per month and applications are to be made in person before March 1st.

SECOND YEAR

HOURS

Lectures and demonstrations on the fundamental aspects of clinical surgery. Drs. CHURCHILL, CUTLER, MILLER and Associates. M.G.H., B.C.H. and P.B.B.H. <i>Second half-year.</i>	15
Section work. Clinics and exercises in surgical technique, bandaging and methods of special examination. M.G.H., B.C.H., P.B.B.H., C.H. and B.I.H. <i>Each student has twenty-four exercises.</i>	60

THIRD YEAR

Amphitheatre lectures. Drs. CHURCHILL, CUTLER, LADD, WALKER, and Associates. <i>Once a week throughout the year.</i>	32
Exercises in sections in the wards and out-patient departments at the M.G.H., B.C.H., and P.B.B.H. <i>Each section has thirty-two exercises of two and a half hours each and twenty-one exercises of three hours each.</i>	116
Genito-Urinary Surgery. Lectures. <i>Second half-year.</i>	6
Section work. M.G.H., B.C.H., and P.B.B.H. <i>Each student has ten or eleven two-and-a-half-hour exercises.</i>	27
Children's Surgery. Section work. C.H. <i>Each student has four one-and-a-half-hour exercises, eleven one-hour exercises, and five two-hour exercises.</i>	27

FOURTH YEAR

Clinical clerkship at M.G.H. (Surgery C1, Dr. CHURCHILL and Associates), B.C.H. (Surgery C2, Dr. WALKER and Associates), P.B.B.H. (Surgery

C3, Dr. CUTLER and Associates), B.I.H. (Surgery C4, Dr. MIXTER and Associates, *from August to January inclusive*) or C.H. (Surgery C5*, Children's Surgery, Dr. LADD and Associates.) 288 or 432

FOURTH YEAR ELECTIVE COURSES

6. Genito-Urinary Surgery. Dr. BARNEY. M.G.H. Half-course, mornings; or, with permission of the instructor, whole course, all day.
7. Genito-Urinary Surgery. Dr. RILEY. B.C.H. Half-course, mornings; or, with the permission of the instructor, whole course, all day.
8. Genito-Urinary Surgery. Dr. QUINBY. P.B.B.H. Whole course, all day. Limited to two men each month.
9. Anaesthesia. Dr. BEECHER. M.G.H. Whole course, all day, each month throughout the year. A limited number of students will be accepted. Applications to be made in person.
20. Surgical Investigation. Laboratory, H.M.S. Whole course, all day. To be arranged with individual instructor.
21. Experimental Surgery. Dr. CHURCHILL and Associates. M.G.H. Whole course, all day.

VOLUNTARY COURSES

30. Pathological Physiology of Surgical Diseases. Dr. FINE. Thursdays, 2 to 3.30 P.M. November and December. B.I.H. Open to third year men.
31. Clinical Applied Anatomy. Dr. CHEEVER. Saturdays, 9 to 10 A.M., October through January. P.B.B.H. Open to first year men. (See Anatomy 30.)
32. Surgical Technique. Members of the third year class may register for the following courses in surgical technique at the hospital to which they have been assigned for their section work.
 1. Operative Technique and Surgical Pathology. Dr. ROBERT R. LINTON. Surgical Laboratories, M.G.H. Tuesday afternoons throughout the year. (May only be taken coincidentally with section work.)
 2. Operative Technique. Dr. STEPHEN J. MADDOCK. Surgical Laboratory, B.C.H. Tuesday afternoons throughout the year. (May only be taken coincidentally with section work.)
 3. Operative Technique. Dr. F. C. NEWTON. Laboratory of Surgical Research, H.M.S. Thursday afternoons, December, January and February. (Limited to 30 men who take section work at the P.B.B.H. Apply to Dr. Newton during November.)

* May be counted as a month of required surgery only for men who take two months of general surgery.

GYNAECOLOGY

FRANK A. PEMBERTON, M.D., *Clinical Professor of Gynaecology.*

FREDERICK L. GOOD, M.D., *Instructor in Gynaecology.*

ROBERT M. GREEN, M.D., *Instructor in Gynaecology and in Obstetrics and Associate Professor of Applied Anatomy.*

JOHN T. WILLIAMS, M.D., *Instructor in Gynaecology.*

CARM R. ALDEN, M.D., *Assistant in Gynaecology.*

JOSEPH P. COHEN, M.D., *Assistant in Gynaecology.*

JAMES F. CONWAY, M.D., *Assistant in Gynaecology.*

J. FRANK DEICH, M.D., *Assistant in Gynaecology.*

CHRISTOPHER J. DUNCAN, M.D., *Assistant in Gynaecology.*

KENNETH C. FARNSWORTH, M.D., *Assistant in Gynaecology, in Obstetrics, and in Anatomy.*

JOSEPH D. FERRONE, M.D., *Assistant in Gynaecology.*

SIDNEY C. GRAVES, M.D., *Assistant in Gynaecology.*

HAROLD V. HYDE, M.D., *Assistant in Gynaecology.*

FREDERICK J. LYNCH, M.D., *Assistant in Gynaecology.*

PHILIP P. MCGOVERN, M.D., *Assistant in Gynaecology.*

REGINALD D. MARGESON, M.D., *Assistant in Gynaecology.*

G. ELLIOTT MAY, M.D., *Assistant in Gynaecology and in Obstetrics.*

JAMES J. MEEHAN, M.D., *Assistant in Gynaecology.*

JOHN ROCK, M.D., *Assistant in Gynaecology and Research Fellow in Obstetrics.*

EDWARD B. SHEEHAN, M.D., *Assistant in Gynaecology.*

ROGER E. STEWART, M.D., *Assistant in Gynaecology.*

P. FRANCIS WEISS, M.D., *Assistant in Gynaecology.*

PAUL A. YOUNGE, M.D., *Assistant in Gynaecology.*

GEORGE VAN S. SMITH, M.D., *Research Fellow in Gynaecology.*

REQUIRED COURSES

Third Year. — Instruction is given by lectures and clinical teaching in the third year. Clinics are held in the wards and out-patient departments of the Free Hospital for Women and the Boston City Hospital. The student is instructed in the examination, diagnosis, and treatment of gynaecological disease.

THIRD YEAR

HOURS

Lectures. Dr. PEMBERTON. H.M.S. *Last six Tuesdays, first half-year.*

6

Clinical exercises. Drs. PEMBERTON, SHEEHAN, ROCK, GRAVES and YOUNGE, F.H.W., and Drs. GREEN, COHEN, GOOD, HYDE, WILLIAMS, and MARGESON, B.C.H. *In sections, throughout the year. Each student attends ten or eleven exercises.*

27

FOURTH YEAR ELECTIVE COURSE

1. Clinical Course. Dr. PEMBERTON, assisted by Drs. SMITH, SHEEHAN, ROCK, GRAVES and YOUNGE. F.H.W. Half-course, mornings, offered throughout the year.

ORTHOPAEDIC SURGERY

FRANK R. OBER, M.D., *Clinical Professor of Orthopaedic Surgery and Assistant Dean in charge of Courses for Graduates.*

MARIUS N. SMITH-PETERSEN, M.D., *Clinical Professor of Orthopaedic Surgery.*

ARTHUR T. LEGG, M.D., *Assistant Professor of Orthopaedic Surgery.*

JAMES W. SEVER, M.D., *Assistant Professor of Orthopaedic Surgery.*

ALBERT H. BREWSTER, M.D., *Instructor in Orthopaedic Surgery.*

LLOYD T. BROWN, M.D., *Instructor in Orthopaedic Surgery.*

G. KENNETH COONSE, M.D., *Instructor in Orthopaedic Surgery.*

WILLIAM T. GREEN, M.D., *Instructor in Orthopaedic Surgery.*

LORING T. SWAIM, M.D., *Instructor in Orthopaedic Surgery.*

GEORGE W. VAN GORDER, M.D., *Instructor in Orthopaedic Surgery.*

JOSEPH S. BARR, M.D., *Assistant in Orthopaedic Surgery.*

EDWIN F. CAVE, M.D., *Assistant in Orthopaedic Surgery.*

PINCKNEY HARRAL, M.D., *Assistant in Orthopaedic Surgery.*

PAUL W. HUGENBERGER, M.D., *Assistant in Orthopaedic Surgery.*

ROBERT J. JOPLIN, M.D., *Assistant in Orthopaedic Surgery.*

JOHN G. KUHN, M.D., *Assistant in Orthopaedic Surgery.*

ROBERT H. MORRIS, M.D., *Assistant in Orthopaedic Surgery.*

SUMNER M. ROBERTS, M.D., *Assistant in Orthopaedic Surgery.*

WILLIAM A. ROGERS, M.D., *Assistant in Orthopaedic Surgery.*

REQUIRED COURSES

Third Year. — Instruction is given in Orthopaedic Surgery by lectures at the Children's Hospital in the first half of the third year, and throughout the third year by clinical exercises at the Children's Hospital, Massachusetts General Hospital, Peter Bent Brigham Hospital and Boston City Hospital.

THIRD YEAR

HOURS

Lectures. Dr. OBER. C.H. *First half-year.* 8

Clinical exercises. Dr. OBER and Associates. C.H., M.G.H., P.B.B.H., and B.C.H. *In sections throughout the year.* 30

The students are assigned to the Children's Hospital for thirty-two days to receive correlated clinical instruction in the diseases and disabilities of children. The clinical exercises in Orthopaedic Surgery will be given during this period.

The clinical exercises in Orthopaedic Surgery and Industrial Surgery of adults will be correlated with clinical exercises in General Surgery at the Massachusetts

General, the Peter Bent Brigham and the Boston City Hospitals during the three months that each student is assigned to one of these hospitals for his clinical instruction in General Surgery.

FOURTH YEAR ELECTIVE COURSES

1. Special Course. Half-course, afternoons, December. Given for not less than ten students. M.G.H.
2. Clinical Course. Whole course, all day, or half-course, mornings, offered throughout the school year. M.G.H. and C.H.
3. Clinical Course. Half-course, mornings, offered throughout the school year. Out-patient Department, C.H.
4. Clinical Course. Half-course, mornings, offered throughout the school year. Out-patient Department, M.G.H.

Otology and Laryngology

OTOLOGY

HARRIS P. MOSHER, M.D., S.D., *Walter Augustus Lecompte Professor of Otology and Professor of Laryngology.*

HARRY P. CAHILL, M.D., *Assistant Professor of Otology.*

FREDERICK L. BOGAN, M.D., *Instructor in Otology.*

PHILIP E. MELTZER, M.D., *Instructor in Otology.*

CHARLES T. PORTER, M.D., *Instructor in Otology.*

MOSES H. LURIE, M.D., *Assistant in Otology.*

PHILIP MYSEL, M.D., *Assistant in Otology.*

LEON E. WHITE, M.D., *Assistant in Otology.*

Third Year. — Instruction is given by lectures at the Harvard Medical School and clinical instruction in the third year in sections, each student receiving instruction every morning for two weeks at the Massachusetts Eye and Ear Infirmary with anatomical and histological demonstrations at the Harvard Medical School.

THIRD YEAR

HOURS

Clinical exercises in Otology. Dr. MOSHER and Staff. M.E. and E.I.

Every student has eight exercises.

27

Lectures in Otology. Dr. CAHILL. H.M.S. *Once a week. September-October.*

5

FOURTH YEAR ELECTIVE COURSES

1. Clinical Otology. Quarter-course, mornings, offered throughout the year. M.E. and E.I.
2. Advanced Otology. Half-course, mornings, October to January. M.E. and E.I.

LARYNGOLOGY

HARRIS P. MOSHER, M.D., S.D., *Professor of Laryngology and Walter Augustus Lecompte Professor of Otology.*

HARRY A. BARNES, M.D., *Instructor in Laryngology.*

FREDERICK E. GARLAND, M.D., *Instructor in Laryngology.*

EDWARDS W. HERMAN, M.D., *Instructor in Laryngology.*

CHARLES D. KNOWLTON, M.D., *Instructor in Laryngology.*

HAROLD G. TOBEY, M.D., *Instructor in Laryngology.*

WILLIAM I. WIGGIN, M.D.C.M., *Instructor in Laryngology.*

GEORGE H. WRIGHT, D.M.D., *Instructor in Laryngology.*

MAURICE G. EVANS, M.D., *Assistant in Laryngology.*

ROBERT L. GOODALE, M.D., *Assistant in Laryngology.*

CHARLES I. JOHNSON, M.D., *Assistant in Laryngology.*

DONALD H. MACDONALD, M.D., *Assistant in Laryngology.*

FRANCIS L. WEILLE, M.D., *Assistant in Laryngology.*

REQUIRED COURSES

Third Year. — Instruction consists of lectures and section work in the third year, each section being assigned to the throat clinic of the Massachusetts General Hospital. In addition to clinical instruction, special demonstrations in anatomy are given.

THIRD YEAR	HOURS
Clinical exercises in Laryngology. Staff. <i>Ten or eleven exercises for each student.</i>	27
Laryngology Lectures. Dr. MOSHER. H.M.S.	6

FOURTH YEAR ELECTIVE COURSE

- i. Clinical Laryngology. Dr. MOSHER and Assistants. Half-course or quarter-course, mornings, offered throughout the year. M.G.H.

Tropical Medicine

RICHARD P. STRONG, M.D., S.D., *Professor of Tropical Medicine.*

A. WATSON SELLARDS, M.D., *Associate Professor of Tropical Medicine.*

JOSEPH C. BEQUAERT, Ph.D., *Assistant Professor of Entomology.*

JACK H. SANDGROUND, S.D., *Assistant Professor of Tropical Helminthology.*

GEORGE C. SHATTUCK, M.D., A.M., *Assistant Professor of Tropical Medicine.*

ROLAND C. CONNOR, M.D., *Lecturer on Tropical Medicine.*

A. HAMILTON RICE, M.D., A.M., *Lecturer on Diseases of South America and Professor of Geographical Exploration.*

ALBERT A. HONOR, M.D., *Assistant in Tropical Medicine and Instructor in Medicine.*

MAURICE B. STRAUSS, M.D., *Assistant in Tropical Medicine and Instructor in Medicine.*

FOURTH YEAR ELECTIVE COURSES

The following courses in Medical Zoölogy and Tropical Medicine are given in the Department of Tropical Medicine. Students coming from tropical or subtropical countries, or those who intend to practise in such countries, are especially urged to elect these courses. Further details concerning the same may be obtained from Dr. R. P. STRONG, Room 245, Building DI.

1. INFECTIOUS DISEASES. Drs. STRONG, SELLARDS, and SHATTUCK. Half-course, afternoons. February.
2. PROTOZOÖLOGY. Staff. Half-course, afternoons. March.
3. HELMINTHOLOGY. Dr. SANDGROUND. Half-course, afternoons. April.
4. MEDICAL ENTOMOLOGY. Dr. BEQUAERT. Half-course, afternoons. May.
5. SPECIAL CLINICAL WORK. Drs. G. C. SHATTUCK and M. B. STRAUSS. B.C.H. Time to be arranged with the instructor.
- 20b. TROPICAL MEDICINE RESEARCH. Drs. STRONG, SELLARDS, BEQUAERT, and SANDGROUND. Time to be arranged with the instructor.

SPECIAL VOLUNTARY COURSES

Heredity in Relation to Medicine. Dr. KEELER. Thursdays, 2.30 to 3.30 P.M., February through May. H.M.S.

Research Course in Heredity. Dr. KEELER. February through May. Time individually arranged. H.M.S.

Physical Education

Work in Physical Education is planned in order to benefit the health of the medical student and also to give him an opportunity of realizing the importance of systematic exercise in the maintenance of health. To this end close coöperation is maintained with those in charge of the physical examination and the health of the students. A student may elect the type of exercise best suited to his particular needs as advised at the time of his physical examination.

* Med. Spec. = Neurology, Psychiatry, Dermatology and Syphilology. † Surg. Spec. = Genito-Urinary Surgery, Gynaecology, Laryngology.

† There are no afternoon classes on Mondays and Wednesdays for students taking Ophthalmology and Otolary.

§ For this course the students are assigned to one of the districts of the B. L. I. and are on duty twenty-four hours a day for a period of ten or eleven days. The Class is divided into thirds and the Medical and Surgical thirds are made up of two groups:

I. — Having Medicine (or Surgery) on Mondays, Wednesdays and Fridays and the Medical (or Surgical) specialties on Tuesdays, Thursdays and Saturdays.

II. — Having Medicine (or Surgery) on Tuesdays, Thursdays and Saturdays and the Medical (or Surgical) specialties on Mondays, Wednesdays and Fridays.

The Third having Pediatrics, etc., is made up of Divisions A and B. These Divisions interchange every 32 days.

The Thirds interchange every 64 days.

Vacations: Dec. 23-Jan. 3; Apr. 4-11.

Holidays: Oct. 12; Nov. 11; Nov. 26; Feb. 22; Apr. 19.

FOURTH YEAR PROGRAM

(Each block represents one month. Order of subjects variable.)

	1	2	3	4
MORNING			Medicine C ₁ , C ₂ , C ₃ , or C ₄ †	
	Medicine C ₁ , C ₂ , C ₃ , or C ₄ †	Medicine C ₁ , C ₂ , C ₃ , or C ₄ †	or Surgery C ₁ , C ₂ , C ₃ , C ₄ † or C ₅ *	Surgery C ₁ , C ₂ , C ₃ , C ₄ † or C ₅ *
AFTERNOON				
	5	6	7	8
MORNING				
	Surgery C ₁ , C ₂ , C ₃ , C ₄ † or C ₅ *	Obstetrics C ₁	Pediatrics C ₁ or C ₂	Elective
AFTERNOON				

† From August to January inclusive.

* May be counted as a month of required surgery only for men who take two months of general surgery.

A student may gain time for additional elective courses by anticipating required courses of the fourth year during the vacation period between the third and fourth years. In very exceptional cases a student will be permitted to substitute elective for required courses without anticipating the required work during the summer.

DEGREES

ON FEBRUARY 24, 1936, ONE DEGREE WAS CONFERRED AS FOLLOWS:

Henry Stanley Warren, A.B. 1931.

ON JUNE 18, 1936, ONE HUNDRED THIRTY-THREE DEGREES WERE CONFERRED
AS FOLLOWS:

M.D.

- Albaugh, Clarence Henry, A.B. (*Dartmouth College*) 1933.
Anderson, Albert Burton, S.B. (*Yale University*) 1931.
Appel, John Wilberforce, III, S.B. 1932.
Avery, Noyes Latham, Jr., A.B. (*Williams College*) 1932.
Baldwin, Arthur Dwight, A.B. (*Amherst College*) 1932.
Barron, Edward Milton, A.B. 1932.
Bartram, John Bowman, S.B. (*Hamilton College*) 1932.
Bayles, Theodore Bevier, S.B. (*Rutgers University*) 1932.
Beck, Irving Addison, A.B. (*Brown University*) 1932.
Blodgett, William Henry, A.B. (*Oberlin College*) 1932.
Bonnet, Philip Dirlam, A.B. (*Wesleyan University*) 1932.
Brines, John Kincaide, A.B. (*Yale University*) 1932.
Brooks, Samuel McLeod, A.B. (*Yale University*) 1932.
Bunting, Henry, A.B. (*Yale University*) 1932, A.M. (*University of Wisconsin*) 1934.
Burke, Francis Madden, A.B. 1931.
Campbell, Henry Arthur, PH.B. (*Brown University*) 1932.
Cannon, Espey Farnsworth, A.B. (*University of Utah*) 1933.
Cantlon, Edwin Lowell, S.B. (*University of Nevada*) 1932.
Carlin, Gerald Joseph, A.B. (*College of the Holy Cross*) 1932.
Cassels, Donald Ernest, A.B. (*University of North Dakota*) 1932, S.B. (*ibid.*) 1934.
Catlin, Daniel, A.B. (*Yale University*) 1932.
Caulfield, Thomas Edward, Jr., A.B. (*College of the Holy Cross*) 1932.
Cheever, Francis Sargent, A.B. 1932.
Clarke, Samuel Tracy, A.B. (*Stanford University*) 1933.
Congdon, Palmer, A.B. (*Amherst College*) 1932.
Cummings, Harwood Warrilows, A.B. (*Middlebury College*) 1932.
Dorman, Daniel Bliss, A.B. 1932.
Downs, Roger Sherman, A.B. (*Williams College*) 1932.
Drew, Robert Whitmarsh, A.B. (*Wesleyan University*) 1932.
Dublin, Thomas David, A.B. (*Dartmouth College*) 1932.
Egan, William Joseph, A.B. (*Boston College*) 1932.
Ennis, David, A.B. 1932.
Ewell, John Woodruff (*Yale University*).

- Frackelton, William Hamilton, s.B. (*Boston University*) 1932.
Franklin, Roy Wade, s.B. (*University of North Carolina*) 1934.
Freeman, James Voorhees, A.B. (*Washington and Lee University*) 1932.
Gilmour, Monroe Taylor, A.B. (*Davidson College*) 1929, A.M. (*Princeton University*) 1930.
Goldberg, Samuel James, Jr., A.B. (*Yale University*) 1932.
Greene, Laurence Francis, s.B. (*University of Chicago*) 1932.
Griffith, Robert Leland, A.B. (*University of Alabama*) 1932.
Hall, Walter Louis Henry, A.B. (*University of Maine*) 1932.
Hamilton, Alfred Thompson, A.B. (*University of North Carolina*) 1932.
Hammon, William McDowell, A.B. (*Allegheny College*) 1932.
Harken, Dwight Emary, A.B. 1931.
Harrison, Marlow Bristow, A.B. (*Stanford University*) 1933.
Havens, Walter Paul, Jr., A.B. 1932.
Hayes, Donald Robert, A.B. 1932.
Hinds, Charles Benjamin, Jr., A.B. (*Dartmouth College*) 1933.
Hirtle, Ralph Benjamin, s.B. (*Bowdoin College*) 1930.
Hodges, Richard Gilbert, A.B. 1931.
Hoff, Hebbel Edward, s.B. (*University of Washington*) 1928, B.A. (*University of Oxford*) 1930, M.A. and PH.D. (*ibid.*) 1933.

Latham, Raymond Waldron, A.B. (<i>State Univ. of Iowa</i>) 1936.	Cedar Falls, Iowa
Leonard, Field Case, A.B. 1936.	Brookline
London, Seymour Burton, A.B. (<i>Univ. of Michigan</i>) 1936.	Miami Beach, Fla.
Lowrey, John Jewett, A.B. 1935.	Honolulu, Hawaii
McCandless, Carl Marsh, Jr., S.B. (<i>Univ. of Washington</i>) 1935.	Auburn, Wash.
MacMillan, Hugh Allen, Jr., A.B. (<i>Princeton Univ.</i>) 1936.	Cumberland, Md.
McQueeney, Andrew Joseph, A.B. (<i>Yale Univ.</i>) 1936.	Bridgeport, Conn.
Malewitz, Edward Charles, A.B. 1936.	Trenton, N.J.
Manheimer, Leon Henry, A.B. 1936.	Torrington, Conn.
Meigs, John Wister, A.B. (<i>Princeton Univ.</i>) 1936.	Washington, D.C.
Meilman, Edward, A.B. 1936.	Roxbury
Millard, Ernest Boyd, Jr., A.B. (<i>Yale Univ.</i>) 1936.	Rochester, N.Y.
†Miller, Edward Sidney (<i>State Univ. of Iowa</i>).	Sioux City, Iowa
Mills, Frederick, A.B. (<i>Yale Univ.</i>) 1936.	Gloversville, N.Y.
Mirken, Allan Stanley, A.B. (<i>Cornell Univ.</i>) 1936.	Brooklyn, N.Y.
†Mithoefer, James Herman (<i>Miami Univ.</i>).	Cincinnati, Ohio
Monagan, Thomas Mulry, A.B. (<i>Dartmouth Coll.</i>) 1936.	Waterbury, Conn.
Morris, John McLean, A.B. (<i>Princeton Univ.</i>) 1936.	New York, N.Y.
Myers, Gordon Steinbach, A.B. 1936.	Merion, Pa.

† Admitted on basis of three years' college work (in several cases work for degree completed).

- Nickson, James Joseph, S.B. (*Univ. of Washington*) 1936. *Seattle, Wash.*
 Ohaneson, Edward Michael, A.B. (*Brown Univ.*) 1936. *Portland, Maine*
 †Palmer, Edward Joseph (*Univ. of Rochester*). *Washington, N.Y.*
 Paull, Thomas, A.B. 1936. *Barre*
 Pavlo, Irving Lionel, A.B. 1935. *Malden*
 Perry, Thomas, Jr., A.B. 1936. *Westerly, R.I.*
 Picciotti, Romulus Augustus, A.B. 1936. *Rochester, N.Y.*
 Pillsbury, Philip Lansdale, A.B. (*Princeton Univ.*) 1936. *Washington, D.C.*
 Porter, Arnold, A.B. (*Yale Univ.*) 1936. *Providence, R.I.*
 Potsubay, Samuel Franz, Jr., A.B. (*Amherst Coll.*) 1936. *Easthampton*
 Pratt, Edward Lowell, S.B. (*Massachusetts Inst. of Technology*) 1936. *Great Barrington*
 Prestley, William Francis, S.B. (*Yale Univ.*) 1936. *Mexico City, Mexico*
 Randolph, Rivington Hammond, A.B. (*Univ. of Georgia*) 1936. *Winder, Ga.*
 Rapoport, Bernard, A.B. (*Yale Univ.*) 1936. *Hartford, Conn.*
 †Reed, John Shelton (*Univ. of Rochester*). *Kingsport, Tenn.*
 †Remington, Avon Charles, Jr. (*Univ. of Colorado*). *Delta, Colo.*
 Ritzman, Thomas Alexander, A.B. (*Yale Univ.*) 1936. *Durham, N.H.*
 Robinson, Francis Clay, S.B. (*West Virginia Wesleyan Coll.*) 1936. *Grafton, W. Va.*
 Ryan, Bernard Joseph, S.B. (*Catholic Univ. of America*) 1936. *Chateaugay, N.Y.*
 Sall, Robert Dayton, A.B. 1936. *Mattapan*
 Santacross, Nicholas Lewis, Jr., A.B. (*Boston Coll.*) 1936. *Wollaston*
 Scannell, John Gordon, A.B. 1936. *Jamaica Plain*
 Seigle, Stewart Pinnell, A.B. (*Wesleyan Univ.*) 1936. *West Hartford, Conn.*
 Shapiro, Robert Rubin, A.B. 1936. *Dorchester*
 Shepard, Bruce Morgan, A.B. (*Univ. of Illinois*) 1932. *Alton, Ill.*
 Sorenson, Charles Wallace, S.B. (*Utah State Agricultural Coll.*) 1936. *Logan, Utah*
 Sturgis, Warren, A.B. 1935. *Boston*
 †Sweeny, Donald Neil, Jr. (*Univ. of Michigan*). *Detroit, Mich.*
 Thompson, Allen, A.B. 1935. *Cambridge*
 Thompson, James Harwood, A.B. (*Univ. of California*) 1936. *Burlingame, Calif.*
 Tighe, Thomas James Gasson, A.B. 1936. *Lowell*
 Timm, Alexander Berthold, Jr., A.B. (*Yale Univ.*) 1936. *Milford, Conn.*
 Vander Laan, John Edwin, A.B. (*Hope Coll.*) 1936. *Muskegon, Mich.*
 Walker, Walter Willard, A.B. (*Princeton Univ.*) 1935. *Minneapolis, Minn.*
 Webster, Andrew Gerrish, 2d, A.B. 1936. *Newton Centre*
 Webster, Earle Hanson, A.B. 1936. *Bridgewater*
 Weller, Thomas Huckle, A.B. (*Univ. of Michigan*) 1936. *Ann Arbor, Mich.*
 Wells, Samuel Mauldin, A.B. (*Princeton Univ.*) 1936. *Morrisville, Pa.*
 White, LeMoynes, A.B. 1936. *Pasadena, Calif.*

† Admitted on basis of three years' college work (in several cases work for degree completed).

SUMMARY

99

White, William Alvin, Jr., s.B. (*Mount Union Coll.*) 1936.

Canton, Ohio

Wood, Paul Roy, A.B. (*Cornell Univ.*) 1936.

Jenkintown, Pa.

Zooloomian, Hrad Haig, A.B. (*Brown Univ.*) 1936.

Cranston, R.I.

SUMMARY

CANDIDATES FOR THE DEGREE OF DOCTOR OF MEDICINE

FOURTH CLASS..... 140

THIRD CLASS..... 137

SECOND CLASS..... 124

FIRST CLASS..... 125

Total 526
